Northern Seed & Nursery Co.

IPSWICH, SO. DAKOTA
BUY DIRECT AND SAVE

IMPORTANT

Successful farmers plant only Northern grown Seed Corn. There is only one way to be sure of a corn crop. That is to be certain that the seed planted has been grown in the north long enough so that it will be sure to mature. It is a big gamble to try to mature corn, when the seed that is planted comes from the south.

MINNESOTA NO. 13

Minnesota No. 13 is the most popular yellow dent corn grown in the Great Northwest.

This strain we have, has been grown here 17 years in succession and is much earlier than other strains of this variety. See page 19.

Price \$5.00 per bu., 3 or more bu.
\$4.75 per bu.

HARDY NORTHERN GARDEN SEEDS

For the Great Northwest

I HAVE had quite a checkered career in gardening. I believe I have tried out nearly every variety in the past 25 years. I have sown old varieties under catchy new names and have used a lot of time and ground experimenting for the best in vegetables and flowers.

In reading over a new government bulletin on gardening in the Great Plains country, I have the satisfaction of knowing my experience co-incides with theirs and one thing that has impressed me more than anything else is to offer tested seeds that are true to name and not to misrepresent or overrate.

I have also learned from bitter experience that one gets stung buying bargain seeds as these generally mean little packets or old seeds or both. For these reasons we aim to sell only the best and to give value received and we stand ready at all times if our goods are not satisfactory and are returned to refund your money including transportation charges.

A Little Protection Pays Big

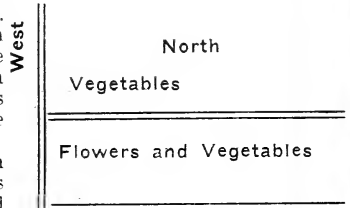

If your garden is not protected by a hedge, shrubs or trees, it will pay big to protect it from the drying winds during the growing season. I have tried out with fine results the scheme of planting a few rows of sweet corn on the west and south sides and if the garden is large a few rows in the middle as I have tried to illustrate here.

The prevailing winds are from the south with occasionally strong ones from the west. This helps keep the moisture in the soil and keeps the wind from whipping the tender vegetable and flower plants. I have also grown the large Russian Sunflower and the Ornamental Sunflowers or sometimes both Sweet Corn and Sunflowers.

The past season was rather a discouraging one but I noticed that where gardens had some protection and were not planted too early that they were a success. That reminds me of the time to plant. In this part the most successful gardeners plant most of their seeds outdoors about the 20th of May. Of course Peas, Onions and some of the hardier kinds can be planted earlier and should be, but for the main garden my experience has been to plant when the seeds will germinate quick and keep growing without any interference as so many times the late spring frosts kill or stunt the plants and most vegetables to be good must be grown quick.

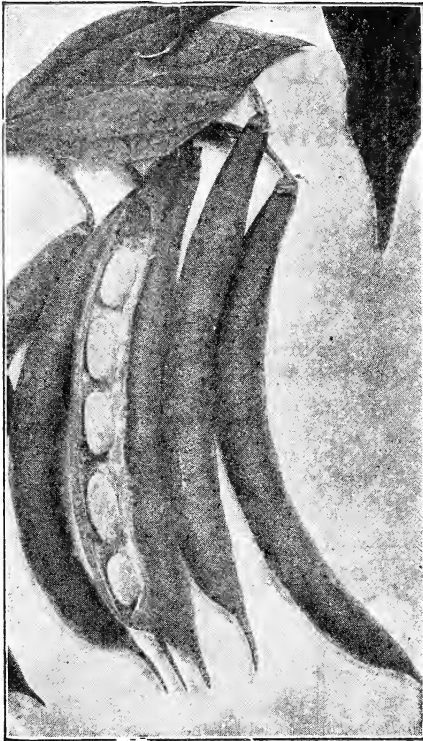

We certainly will appreciate it very much if you will try our seeds out.

Keep down the cost of living by planting a garden and using our northern grown hardy seeds.

J. B. TAYLOR, President.

French Dwarf Horticultural

BEANS

Plant after all danger of frost is over.

BURPEE'S STRINGLESS GREEN POD—

The pods of this new variety are green and stringless, absolutely so, this quality at once placing the variety at the top of the list among table beans, while the early maturity is of great merit. The pods breaking as short and free as pipe stems. Pkt., 5c; $\frac{1}{2}$ lb., 25c; lb., 40c.

IMPROVED RUST-PROOF GOLDEN WAX

The pods average five inches long, are stringless, quite fleshy, straight, broad, flat and of a rich golden color. The vines grow erect and bear the pods well off the ground. By far the most popular bean grown. Pkt., 5c; $\frac{1}{2}$ lb., 25c; 1 lb., 35c; 5 lbs., \$1.50.

FRENCH'S DWARF HORTICULTURAL—

Produces an abundant crop of long green pods splashed with crimson. The plants make healthy and strong growth. It is stringless and used when green for snapping. The beans are also extra fine to cook when dry. Pkt., 5c; $\frac{1}{2}$ lb., 25c; 1 lb., 40c.

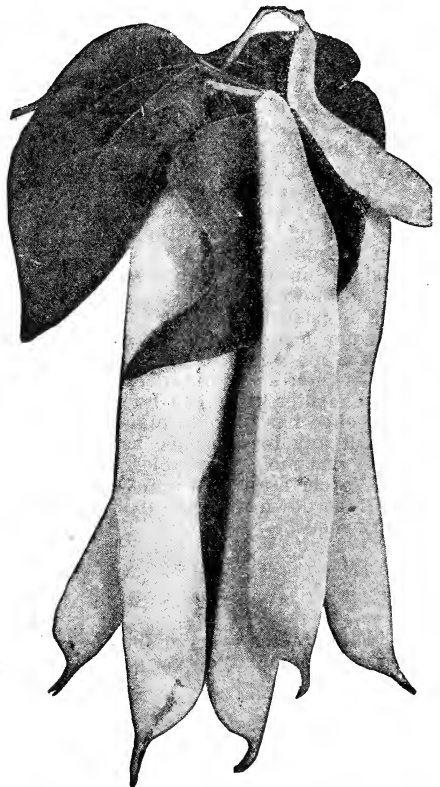

BOUNTIFUL—One of the most productive stringless green podded beans grown. Pods average about six inches and are very brittle. Pkt., 5c; $\frac{1}{2}$ lb., 25c; 1 lb., 40c.

KENTUCKY WONDER, OR OLD HOME-STEAD—Probably the most popular, green-podded climbing or pole bean grown. Very early and productive, pods will grow to eight and nine inches long; are very slender, curved and of tender quality. Pkt., 5c; $\frac{1}{2}$ lb., 25c; 1 lb., 40c.

HENDERSON'S IMPROVED DWARF LIMA

—Very productive and bears continuously all summer. There are but a very few varieties of the limas that will mature in the northwest and this is the only variety that experienced gardeners recommend. Pkt., 10c; $\frac{1}{2}$ lb., 35c.

GREAT NORTHERN—The most Delicious Baking Bean in the World. It is a wonderful yielder and one of the most profitable sorts that can be raised. Grown to the exclusion of all other varieties of field beans in many places. Pkt., 5c; $\frac{1}{2}$ lb., 20c; 1 lb., 30. Express or freight, 10 lbs., \$1.25.

Improved Rust Proof Golden Wax

BEETS

DETROIT DARK RED—One of the very best sorts for home or market garden and for canning or pickling. Roots uniformly smooth, medium size and beautifully globe shaped; skin and flesh dark red, tender and sweet. Pkt., 5c; oz., 20c.

CROSBY'S EGYPTIAN—This is a globular shaped beet and one of the best known and popular varieties grown. It is very early and of fine quality. Bright red with clear vermilion flesh. Pkt., 5c; oz., 15c.

SUGAR BEET

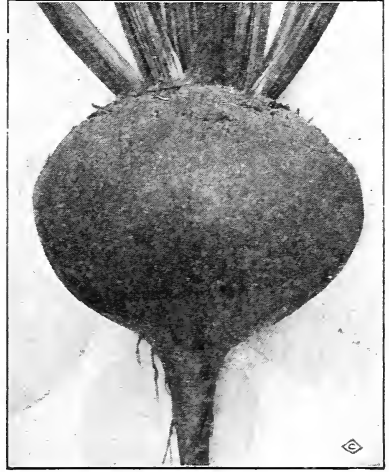

KLEIN WANZLEBEN—The roots are 7 to 8 inches long. They can be grown as close as 5 inches apart in the row. Smooth, with a broad shoulder gradually tapering toward the base. An enormous yielder grown very extensively for sugar. Pkt., 5c; oz., 20c; lb., 75c.

MANGELS

MAMMOTH LONG RED—An enormous producer of extra large solid roots. A fine keeper and an extra fine feeding beet for dairy. Pkt., 5c; ½ lb, 35c.

SWISS CHARD

SWISS CHARD—The plant grows to a height of two and one-half feet with stalks heavily ribbed and from ten to twelve inches long below the leaves; are delicious when cooked and served in the same manner as asparagus. The leaves are large, heavily crumpled, crisply tender and of fine flavor. The leafy portion of the foliage is cooked and served in the same manner as spinach. Pkt., 5c; oz., 20c.

Detroit Dark Red

CABBAGE

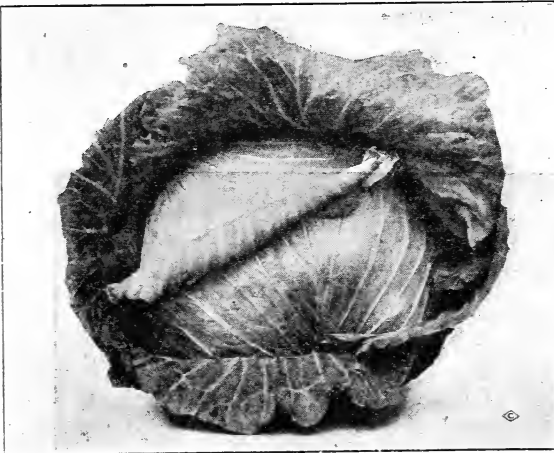

EARLY JERSEY WAKEFIELD—Heads are conical, very hard and solid and of excellent quality. Most gardeners depend upon it for the bulk of their extra early crop and its hardiness to resist cold. Pkt., 5c; oz., 20c.

COPENHAGEN MARKET—Has a short stem and the outer leaves shade the ground so the soil does not dry out as readily. It makes a fast growth and matures early. Has a round head with fine veins and small core, averaging about ten pounds in weight. Can be planted closely together and will yield a greater crop per acre than any other cabbage. Pkt., 10c; oz., 30c.

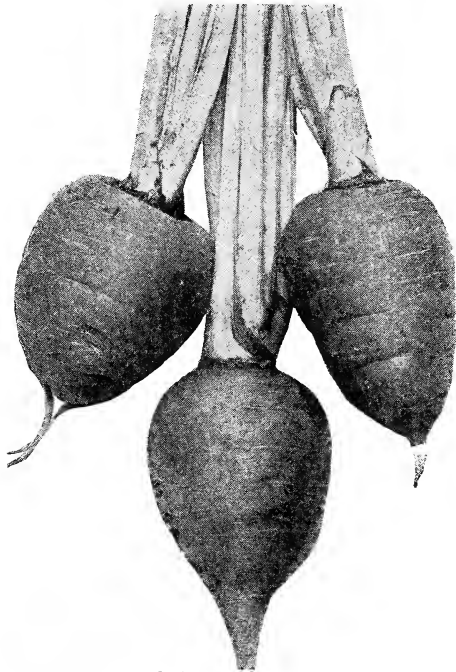

DANISH BALL HEAD—Leading late variety, especially on medium to light soils. Heads are round and fine keepers. The strong growth of this variety enables it to withstand dry weather well and its good keeping quality makes it a most valuable Cabbage for winter storing. Pkt., 10c; oz., 25c.

PREMIUM LATE FLAT DUTCH—Produces large round flattened heads. One of the best for kraut. Is one of the best late fall and winter varieties and an old standby. Pkt., 5c; oz., 25c.

For Cabbage worms spray or dust the heads with Paris green or arsenic of lead. As the cabbage grows from the inside there is no danger of poison. See Cabbage plants under "Vegetable plants."

Copenhagen Market

Oxheart Carrot

CARROTS

CHANTENAY—Uniform and intermediate in size and shape. The tasty flesh is of a deep golden orange color. For table use one of the very best. Pkt., 5c; oz., 20c.

DANVERS HALF-LONG—Of all carrots, this has proven to be the most popular variety in America. It is planted on a large scale by market growers, as the fine roots find a ready sale everywhere, besides being one of the very best for table use. The roots are uniform in size and shape. The texture of the roots is fine-grained and free from any woody fiber. It is remarkably sweet and tender. Pkt., 5c; oz., 20c.

GUERANDE OR OXHEART—Tops are small for the size of the roots, which are comparatively short. Flesh bright orange, fine grained and sweet. This variety is especially desirable for soil so hard and stiff that longer rooted sorts would not thrive in it. Pkt., 5c; oz., 15c.

LARGE YELLOW BELGIAN—Grown exclusively for stock feeding and is an enormous yielder of large golden colored carrots and greatly relished by milk cows and horses. Pkt., 5c; oz., 15c; ½ lb., 45c.

CELERY

WHITE PLUME—This is an early and an easily blanched celery. Plants grow rapidly and when maturing the inner stems and leaves turn white and they blanch naturally, but in order to produce close, attractive bunches, the stalks should, when three-quarters grown, be drawn together and the soil pressed around the plants, which will then in a short time be fit for use. Pkt., 5c.

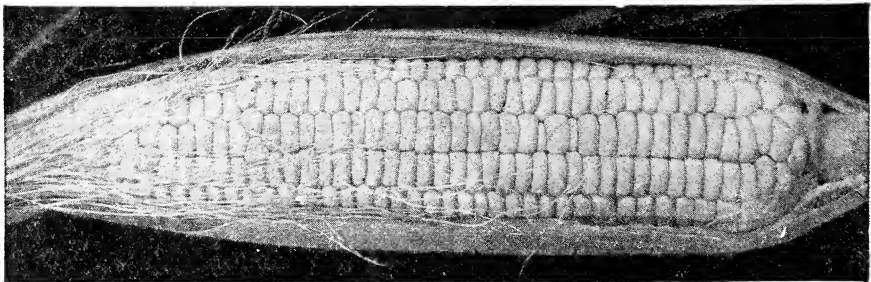

GOLDEN SELF BLANCHING—A new excellent variety that does not require much blanching. Is very stocky and the heart is of a rich golden color and the outer leaves a yellowish green. Pkt., 10c.

See Celery Plants under "Vegetable Plants."

SWEET CORN

GOLDEN BANTAM—The finest and most popular sweet corn in cultivation. It is sweet and tender and a heavy producer and the ears remain edible for an unusually long time. This strain we grew and developed and can highly recommend it for earliness. Pkt., 5c; ½ lb., 20c; 1 lb., 35c; 10 lbs., by express, \$2.50.

BANTAM EVERGREEN—Bantam Evergreen is a cross between Golden Bantam and Stowell's Evergreen. It inherited all the good qualities of both parents and is as sweet as Golden Bantam, the same

beautiful color, but in addition has an ear nearly as large as Stowell's. The kernels are deep grained and plump. Pkt., 5c; ½ lb., 20c; 1 lb., 35c.

OUR EARLIEST—This new variety has a good sized ear, a splendid flavored pure white waxy sweet corn. It is weeks ahead of any of the other varieties. Be sure to order some of this delicious variety and enjoy roasting ears long before the regular sweet corn season opens. Pkt., 5c; ½ lb., 25c; 1 lb., 40c.

STOWELL'S EVERGREEN—This is one of the best main crop white sweet corns grown. The ears are large and the kernels are deep and very sweet. It is a splendid tried and true delicious variety. Pkt., 5c; ½ lb., 20c; 1 lb., 35c.

CITRON

CITRON—The old standard variety used for preserves and sweetmeats. Pkt., 5c.

CAULIFLOWER

DRY WEATHER CAULIFLOWER—The raising of cauliflower in the northwest has been a Jonah to most of us but this variety has been selected and bred to withstand dry weather conditions and makes a very solid and large head of a delicious flavor. Dry weather will succeed where all other varieties fail. Pkt., 10c.

EGG PLANT

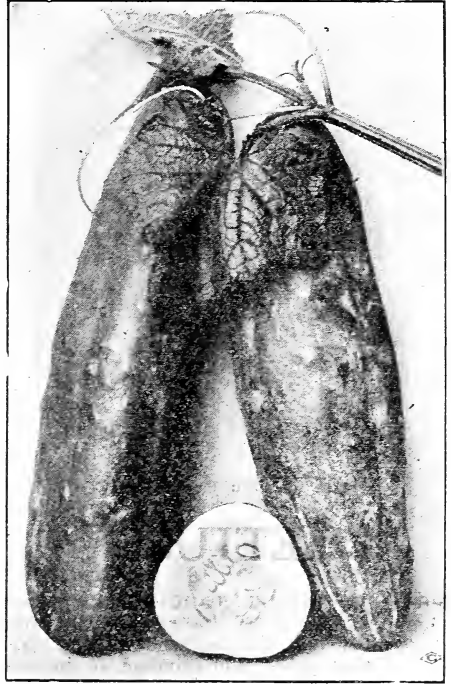

IMPROVED NEW YORK—A very prolific bearer of large dark purple fruit, the quality is excellent and free of thorns. Seeds germinate slow. It is best to raise inside in boxes or in hotbed and transplant outdoors after danger of frost. Pkt., 10c.

KOHL RABI

EARLY WHITE VIENNA—A turnip-rooted cabbage, the edible part being the bulb which grows on a stalk a few inches above the ground. Use before bulbs get to be more than two inches thick, as all varieties are tough and stringy when overgrown. It is well to remove the thick outer skin before boiling. They may be served like turnips. The seed should be sown in the spring ½ inch deep; thin to eight inches apart. Pkt., 10c; oz., 20c.

CUCUMBERS

DAVIS PERFECT—Without question the handsomest cucumber grown. The fruits grow long and slim, sometimes measuring 12 inches in length; the color is a rich, dark glossy green, which they hold until nearly ripe. It is very tender, brittle and of fine flavor. Pkt., 10c; oz., 20c.

Davis Perfect

PEERLESS WHITE SPINE—One of the earliest and most productive of the famous white spine group. Fruit is rounded at both ends, and of bright deep green color. Very popular as a market variety on account of its good keeping qualities and its uniformity of size and shape. Pkt., 5c; oz., 15c.

EARLY FORTUNE—One of the best all around cucumbers grown. Heavy bearer and very uniform and especially fine for pickles. Has a very dark green skin, thick flesh tender and crisp. Pkt., 10c; oz., 20c.

CHICAGO PICKLING—This is a prolific variety, are quite often used for slicing; but it is grown chiefly for medium-sized pickles. If the fruits are gathered as soon as large enough, the vines will continue bearing throughout the season. Excellent quality. Pkt., 5c; oz., 15c.

LEMON CUCUMBER—The flesh is white and has a peculiar sweet flavor, quite different from other cucumbers. They are highly esteemed by many people both for table use and pickling. The fruit is ready to use when it is just commencing to turn yellow. They may be picked while green or ripe as preferred. Grows the same as other cucumbers. Pkt., 10c; oz., 20c.

We sprinkle all our vines with air slacked lime to keep the striped beetles away.

Grand Rapids

LETTUCE

GRAND RAPIDS FORCING—It matures quickly and is of a large size, handsome appearance; crisp and tender. The leaves are bright green and crimped at the edge. It is one of the best varieties for garnishing and general use. Pkt., 5c; oz., 15c.

BLACK SEEDED SIMPSON—One of the best and most largely planted bunching varieties. Very satisfactory and it is very reliable and easily grown; it succeeds during summer when more delicate sorts are failures. A good shipper. Leaves broad and of fine quality, sweet and tender. Pkt., 5c; oz., 15c.

ICEBERG—The outside leaves which are light green branch towards the center which blanches the heart. It is very firm, crisp and of good flavor and forms good sized solid heads. Pkt., 10c; oz., 20c.

TENNIS BALL—One of the very best head lettuces succeeds everywhere and at all seasons. It is a sure header and an excellent shipper. We can recommend it for both private and market gardener's use. The plants are medium size with broad crumpled leaves of light green color and the quality is excellent. Pkt., 10c; oz., 20c.

MUSKMELONS

We have given melon raising serious thought. We know now for a certainty that early varieties must be planted. While some of them are not as good as some of those that can be raised away down south in Dixie but for the main dependable crop we must grow muskmelons and watermelons

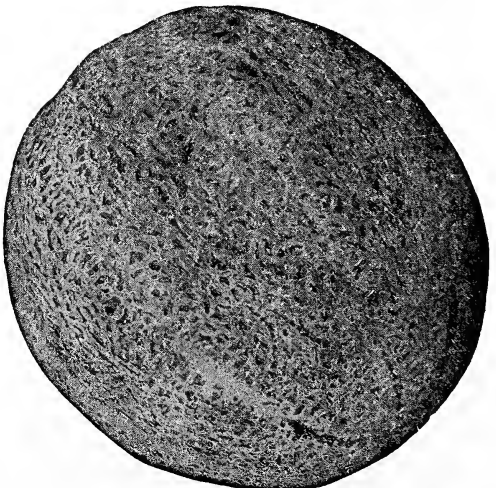

that will adapt themselves and be sure to mature. It is not what we like to grow but what we can grow successfully, and we must take the experience of successful growers.

HACKENSACK—Is an early green fleshed large muskmelon. The vines are vigorous and very productive. The fruit is large and nearly round. One successful melon grower in this vicinity told us "My customers have told me so many times that they never have tasted better melons." One of the very best for main planting. Pkt., 5c; $\frac{1}{4}$ lb., 40c; 1 lb., \$1.15.

EMERALD GEM—A very popular variety with both home and market gardeners. Color is a dark emerald green, with lighter stripes. Flesh very thick, of a dark salmon color. This variety is considered by many to be the best of all muskmelons. Pkt., 5c; $\frac{1}{4}$ lb., 45c.

HEARTS OF GOLD—A mid-season variety of exceptional merit. The fruits are of uniform shape. They are distinctly ribbed and covered with an attractive gray netting. The flesh is a beautiful gray salmon shade. It is very thick, ripens close to the rind and of delicious flavor. Pkt., 10c; $\frac{1}{4}$ lb., 50c.

HARBIN—This muskmelon was brought over by Prof. Hansen from cold northern China in one of his recent exploring trips. It is a small extra early ripener. We recommend it for trial where it is difficult to raise melons. The taste was rather flat to us but as we have raised it but one season and 1926 not being a very favorable one it is likely that it has great possibilities. Pkt., 10c.

Hearts of Gold

JENNY LIND—An old favorite, unusually early, small green fleshed; the fruit is round, flattened at ends, ribbed and netted. And the flesh is very attractive in flavor and quality. Pkt., 5c; ¼ lb., 40c.

ROCKY FORD—It is of the netted gem type. Oval in shape, averaging from four and one-half to five inches in length, of a rich flavor and very fine and smooth grain. Flesh is of a light green color throughout when ripe and very popular. Pkt., 5c; ¼ lb., 35c.

WATERMELONS

HALBERT HONEY—Is a handsome melon of regular form and a very heavy yielder of large delicious fruit. It is the sweetest of all watermelons and Hugh Nash of Redfield, S. D., one of the most successful melon raisers in the state raises this as his main crop and says: "I have many customers that say it is the finest melon that grows and I know it is the finest melon I have ever eaten myself." Pkt., 5c; ¼ lb., 30c; 1 lb., 90c.

PEERLESS OR ICE CREAM—Very early, short, oblong in shape. This is one of the best varieties for the North. The rind is thin, light green, mottled and veined with a darker shade. The flesh is bright scarlet and as sweet as honey. Pkt., 5c; ¼ lb., 30c; 1 lb., 85c.

KLECKLEY'S SWEET—A large oblong melon, 20 inches in length with dark green rind, which is only about ½ inch thick. The scarlet flesh is sweet and sugary and is of such texture that it leaves no strings of pulp whatever in eating. Is better for home use than for shipping and we believe it is one of the best table melons grown. Pkt., 5c; ¼ lb., 30c; 1 lb., 85c.

COLE'S EARLY—For a sure cropper this variety is the best. Medium size, color green with lighter stripes. Flesh is bright red, of fine texture, sweet and very juicy. Pkt., 5c; ¼ lb., 25c; 1 lb., 75c.

NEW WINTER—Has light green rind with clear bright red flesh. If stored in a cool dry place will keep until nearly the first of the year. Pkt., 10c; ¼ lb., 40c; 1 lb., \$1.25.

TOM WATSON—Fruits of this variety sometimes reach a size of 24 inches in diameter. The rind is dark mottled green, thin, but tough enough to endure shipping to very distant markets. The flesh is deep red and very tasty. This is a late variety and should not be grown where the season is short. Pkt., 5c; ¼ lb., 30c; 1 lb., 85c.

PARSNIPS

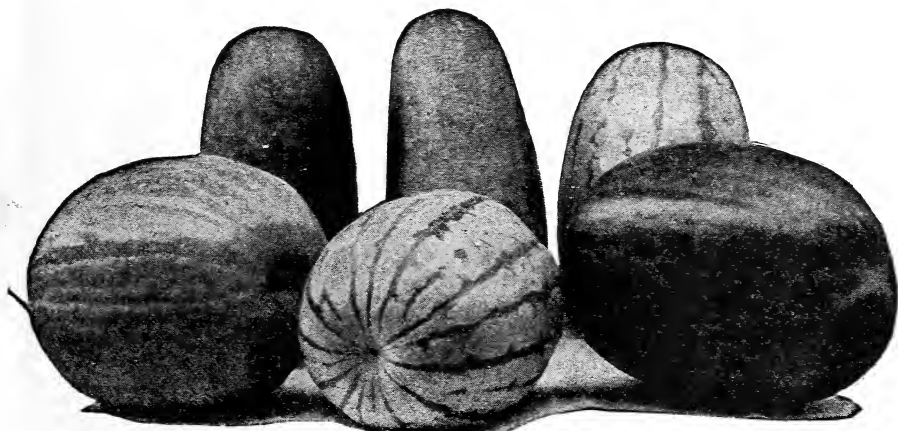

LONG SMOOTH OR HOLLOW CROWN—A great cropper, tender, sugary and considered one of the best for general cultivation. Roots are well developed and average about 12 inches long. Pkt., 5c; ¼ lb., 25c.

PARSLEY

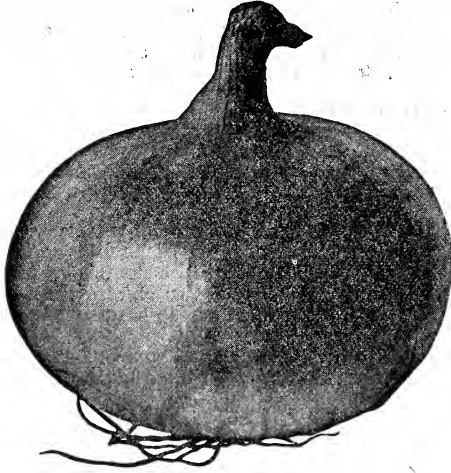

CHAMPION MOSS CURLED—A compact growing densely curled variety of a dark green color, very popular for seasoning soups and for garnishing. Pkt., 5c.

Aberdeen, S. D., Aug. 1, 1926.

"I want to write you that I have had wonderful success with your seeds and will order everything I need hereafter from you."

Nothing Better Than Our Six Varieties

ONIONS

LARGE RED WETHERSFIELD—This is the old standard variety. Makes a large sized flat onion and the flesh is a purplish white, moderately fine grained and strongly flavored. For markets demanding a red onion this is the variety to grow as it matures early and is productive. Pkt., 5c; oz., 20c; ¼ lb., 75c; 1 lb., \$2.75.

SOUTHPORT WHITE GLOBE—Commands the highest market price; good shape, clear, white skin. The flesh is pure white, juicy and sweet with a delightful mild flavor. Pkt., 10c; oz., 25c; ¼ lb., \$1.00.

PRIZE TAKER—Grows to be a very large onion, it is hardy, productive and a fair keeper. Outside skin is rich yellow, flesh is white, sweet and tender. They bottom well and are free from stiffnecks. Pkt., 10c; oz., 25c; ¼ lb., 85c.

EBENEZER OR JAPANESE—The Onions are large and very mild. Somewhat flattened, have attractive yellow skin and firm white flesh of delicate flavor; very small top and ripens quite early for so large a variety. Pkt., 10c; oz., 25c; ¼ lb., 90c.

WHITE PORTUGAL or SILVER SKIN—One of the best for summer and fall use grown. Mild in flavor and cannot be surpassed for young onions for table purpose and for pickling. Pkt., 5c; oz., 20c.

YELLOW GLOBE DANVERS—This is a standard variety for winter use in all markets. Its skin is a rich orange yellow color. The flesh is pure white, crisp and mild in flavor. It is always a heavy yielder and because of its small neck cures well and makes splendid storage stock. Pkt., 10c; oz., 25c; ¼ lb., \$1.00; 1 lb., \$3.00.

See "Onion Sets" under "Sets and Perennial Onions."

RADISH

EARLY SCARLET GLOBE—This well-known and highly bred variety forms attractive, medium-sized, round to oval roots. They are ready for table use in four to five weeks from outdoor spring sowing. The quality is superb, grown both for home and market. Pkt., 5c; oz., 10c; ¼ lb., 40c.

FRENCH BREAKFAST—Ready for use within 25 days after sowing seeds. Oblong shape, mild and tender. The skin is pink in color on the upper portion, lower part is pure white. Pkt., 5c; oz., 10c; ¼ lb., 30c.

SPARKLER—This radish is very popular on account of its beautiful color, its quick growth and fine table qualities. The color is bright scarlet with a large white tip, covering fully one-third of the roots. This variety has small tops and is edible even when it gets large. Pkt., 5c; oz., 10c; ¼ lb., 35c.

CRIMSON GIANT—Suitable both for forcing or early planting out of doors. In shape it is rounding oval and very attractive. The flesh is mild and tender. Grows to larger size than any in this class, yet retains its crispness and delightful flavor. Pkt., 5c; oz., 15c; ¼ lb., 40c.

White Icicle

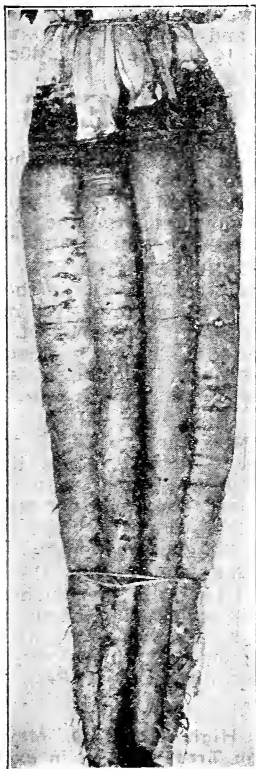

WHITE ICICLE—This variety has short leaves and makes its growth quickly. Attains its best quality at about four inches long and is of transparent whiteness. It is of most excellent flavor and remains crisp long after most other sorts would be discarded as too big and tough. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c.

WHITE CHINESE OR CELESTIAL—Splendid for late fall and early winter use. Roots globe shaped, extra large and ever when fully developed (growing sometimes to 6 inches in diameter) the Radishes are solid, crisp and of a mild flavor. Skin and flesh pure white. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c.

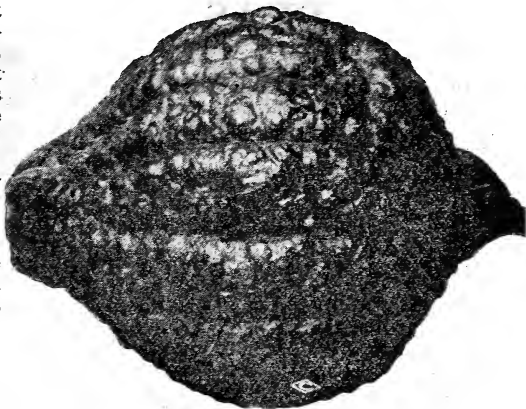

SQUASH

MAMMOTH WHITE BUSH—A very early summer squash. It is flattened and scalloped, comparatively smooth on the surface and creamy white in color. The flesh is thick and very fine in quality. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 35c.

GIANT SUMMER CROOKNECK—An improved variety as early as the common Crookneck and much larger, sometimes attaining length of two feet. It is heavily warted and of bright golden color. The

Vegetable Oyster

Improved Hubbard

plants are bushy and very prolific. The squashes are brittle and tender. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 45c.

IMPROVED HUBBARD—The standard winter squash more extensively grown for the market than any other variety. The fruits are large, heavy and moderately warted. The shell is a dark bronze-green with bright yellow flesh that is fine grained, dry and sweet. Its quality is the standard of excellence. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c.

TABLE QUEEN OR DES MOINES—A small, very productive variety of many desirable qualities. The thin shell is ribbed and a very dark green in color. The rich golden flesh is very thick, of a very fine grain and the seed cavity small. A good keeper, the quality is excellent. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 50c.

Salsify or Vegetable Oyster

Salsify is grown largely for fall and winter use and is highly esteemed for the fine flavor of the roots. The popular name Oyster Plant, has been given to Salsify because the roots have an oyster-like flavor.

MAMMOTH SANDWICH ISLAND—The largest, smoothest and the very best in every way of all salsify. Pure white, very tender and of excellent quality. Pkt., 5c; oz., 25c.

SPINACH

LARGE LEAVED VIROFLAY—Hardy and early with large tender fleshy leaves. The leaves are attractively curled and remain in prime condition for a long time. Pkt., 5c; oz., 10c.

NEW ZEALAND SPINACH—Produces an abundance of leaves on stems a foot or more in length. Will grow during hot, dry weather when other spinach would be useless, continuing to furnish nice "greens" all summer and fall. Pkt., 5c; oz., 15c.

PEAS

Peas can be sown as early as the ground can be worked. Most of these varieties we are offering are early maturing and rather dwarfish and do not necessarily need a trellis or support to grow upon.

ALASKA—An extra early hardy pea. Pods of perfect shape, well filled with smooth peas of unrivalled quality. Height 2½ feet. Pkt., 5c; ½ lb., 20c; 1 lb., 35c.

LAXTONIAN PEA—The ideal variety for the small home garden where space is at a premium. Laxtonian grows but 18 inches high, but the vines are exceedingly vigorous and produces the largest pods of any of the early sorts. Pods average 4 inches long and are uniformly well filled with 8 deep green, large peas, of delightful flavor. Since it is quite hardy it may be planted about the same time as the hardy smooth-seeded varieties. Pkt., 5c; ½ lb., 25c; 1 lb., 45c.

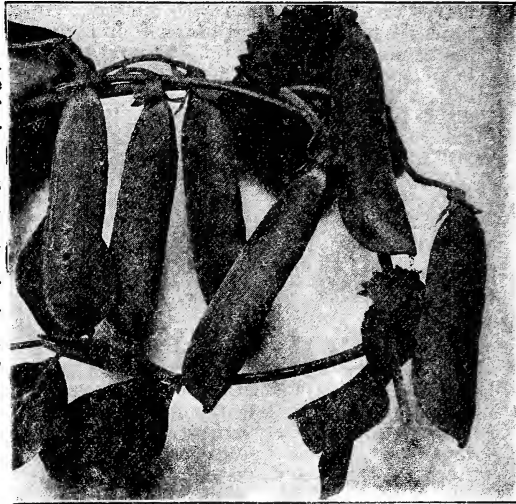

LITTLE MARVEL—We consider this the sweetest of all early peas, and it bears heavy crops of 3 inch long deep green pods, mostly borne in pairs. Every one of these pods, however, contains 8 of the largest, deepest green peas you ever saw, so large in fact that you wonder how they ever fitted into the small pod. The vines grow about 18 inches in height. Pkt., 5c; ½ lb., 25c; 1 lb., 40c.

PROSPERITY OR GRADUS—One of the very best of the large podded kinds. The pods are immense in size, liberally filled and bear in great profusion. The quality and flavor is delicious and is the market gardeners favorite. Pkt., 5c; ½ lb., 25c; 1 lb., 40c.

SUTTON'S PIONEER—The plants are dwarf, growing about 14 inches high, sturdy and exceedingly productive and the quality is very fine indeed. The color of the peas is a light green and it bears the largest pods of the low growing wrinkled Peas. Pkt., 5c; ½ lb., 25c; 1 lb., 40c.

LITTLE GEM—Of dwarf growth, maturing early. The vines grow from 12 to 15 inches in height, and are very productive; pods 2½ to 3 inches long, round, and well filled with large peas. Little Gem is quite well known on account of its sweet and delicious flavor and heavy yield. Pkt., 5c; ½ lb., 20c; 1 lb., 35c.

DWARF TELEPHONE OR DAISY—A medium late pea of dwarf, stocky habit, healthy, vigorous growth, and productive, bearing large, handsome pods and peas of highest quality. Pkt., 5c; ½ lb., 25c; 1 lb., 40c.

Little Marvel

DWARF GRAY SUGAR—Height 2 feet. The pods are light green, 3 inches long, pointed and narrow; quite early. The pods are picked when the peas are forming, and broken and cooked like string beans. Pkt., 5c; ½ lb., 25c; 1 lb., 40c.

PEPPERS

Culture—Sow the seed in hotbed or boxes in the house and when all danger of frost is past, transplant in the open ground. Seeds are slow to germinate. See Pepper Plants under "Vegetable Plants."

HARRIS EARLIEST—We have grown this variety for years and find it the finest and most prolific pepper we ever raised. The plants are dwarf and compact, with fruits averaging 3½ inches in length by 2½ inches through. The flesh is thick and mild and sweet and the earliest of all peppers. Pkt., 10c.

RUBY KING—The fruit is 5 to 6 inches long, and 2½ to 3 inches in diameter, bright red when ripe, deep green when young, flesh thick and very mild. Harris' Earliest will bear many more peppers but they are not quite as large. Pkt., 10c.

GIANT CAYENNE—One of the best "hot" peppers. The fruit is 3 inches long and 1 inch through, being much larger than the old cayenne pepper, and the fruit is equally pungent. Ripens very early and is wonderfully prolific. Pkt., 10c.

Highmore, S. D., May 4, 1926.
"The Elm Trees arrived in excellent condition and surely are very fine trees."

PUMPKINS

SUGAR—A handsome and prolific variety of small size; the skin is a deep orange yellow. It is fine grained in flesh, sweet in taste and an excellent keeper. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 35c.

JAPANESE PIE—Skin deep green with dark stripes; seeds are marked with curious indentations; of the finest quality; good keeper. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c.

LARGE CHEESE OR KENTUCKY FIELD—Large round, flattened fruits, much ribbed and creamy buff in color; flesh yellow and very deep; of fine quality and one of the best canning sorts. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c.

CONNECTICUT FIELD—An immensely productive, large orange colored field pumpkin, usually grown for stock feeding, but also making good pies. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c.

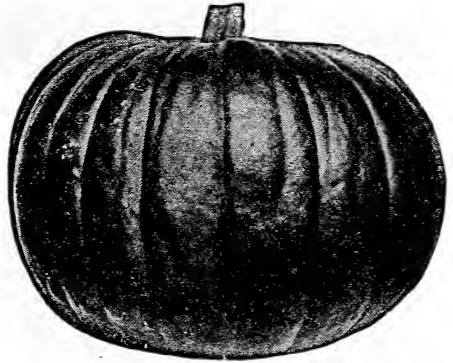

TOMATOES

Tomatoes succeed best in fairly rich soil. For early plants sow seed in boxes or hotbeds in March. Set out of doors as soon as danger of frost is over. Transplant four feet apart each way and cultivate as long as vines will permit. See Tomato plants under "Vegetable Plants."

JOHN BAER—A splendid early tomato which is an improvement of the Earliana, producing beautiful, large, red, solid fruit

John Baer

early in the season. Is an excellent solid shipping tomato which ripens early right up to the stem and is an enormous cropper and when dead ripe will not burst. It has a mild, deliciously sweet flavor. Almost seedless and an enormous stem setter. It is solid and meaty and has just enough foliage. Will stand plenty of manuring without going to vine. We have grown this variety for years and consider it one of the very best tomatoes. Pkt., 10c; oz., 35c.

EARLIANA—One of the earliest varieties. Flesh bright red. Vines bear very heavy and is considered one of the best all around tomatoes grown. Pkt., 5c; oz., 25c.

PONDEROSA—This is the appetizing Crimson Cushion Ponderosa. Color brilliant scarlet crimson. The perfect shaped fruit is of enormous size and very delicious. Pkt., 10c.

LIVINGSTON'S GLOBE—Large, globe shape, always smooth, firm fleshed. With few seeds and ripens evenly. The color is light red, tinged with purple. Matures medium early and is a great favorite. Pkt., 5c; oz., 30c.

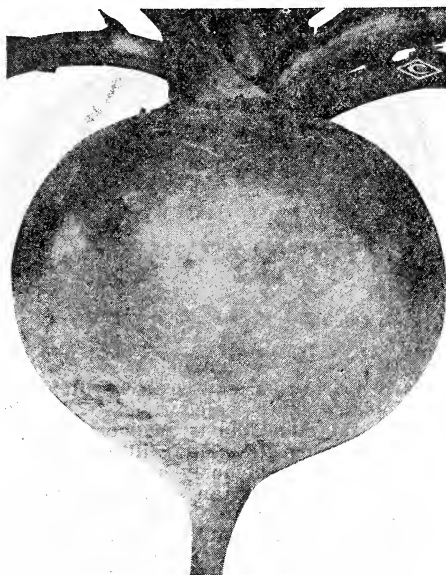

YELLOW PEAR—Fruits a clear, handsome yellow. Very sweet and free from acid. Fine for salads or marmalade. Pkt., 10c; oz., 40c.

ONION SETS

RED, WHITE AND YELLOW BOTTOM SETS—Fine, well cured and well grown sets, either sort. Pt., 20c; qt., 30c; $\frac{1}{2}$ pk., 85c, postpaid.

TOP OR WINTER ONION SETS—Perennial. Live in the ground all winter and start very early in the spring. Pt., 25c; qt., 40c, postpaid.

BERMUDA ONION PLANTS—Seed is planted early in Texas, and plants lifted to produce onions of Bermuda quality in northern gardens. Ready after April first. 500, \$1.15; 1,000, \$2.15, 6,000, \$9.00, postpaid.

Early Snowball

TURNIPS

EARLY SNOWBALL—A perfectly globe-shaped, white-skinned turnip. It is exceedingly productive. The flesh is fine grained, firm and of very delicate flavor. Very early and particularly adapted for family or market use. We recommend it to market gardeners because its earliness and fine appearance make it a very profitable variety of turnip. Pkt., 5c; $\frac{1}{4}$ lb., 30c; 1 lb., 85c.

EARLY WHITE FLAT DUTCH—An excellent extra early, flat turnip, with very mild flavor and fine quality. To be at their best should be used when small as they are more tender. Also grown for a fall crop. Pkt., 5c; $\frac{1}{4}$ lb., 30c; 1 lb., 80c.

PURPLE TOP WHITE GLOBE—One of the standbys and is mild and of good quality. Perfect globe shape and more generally planted than any other variety. We highly recommend it. Pkt., 5c; $\frac{1}{4}$ lb., 25c; 1 lb., 75c.

RUTABAGAS

IMPROVED AMERICAN PURPLE TOP—This is very uniform shape and fine quality and is a splendid keeper. The roots grow to a large size, have small tops, short necks and smooth skin; flesh is beautiful yellow, fine-grained, very sweet, tender and of excellent flavor. Pkt., 5c; $\frac{1}{4}$ lb., 25c; 1 lb., 75c.

HERBS

CARAWAY—Used for flavoring and pastry. Pkt., 10c.

DILL—Used for pickling cucumbers. Pkt., 10c.

FREE—For every dollar's worth of garden and flower seeds ordered, deduct 10% as a premium.

VEGETABLE PLANTS

CABBAGE

EARLY JERSEY WAKEFIELD—The standard early cabbage.

COPENHAGEN MARKET—Extra fine for early and mid-season.

DANISH BALL HEAD—Late and best winter keeper.

Price per doz., 25c; 50 for 75c; 100 for \$1.25, postpaid.

TOMATOES

EARLIANA—The old reliable early variety.

JOHN BAER—The best all around tomato grown.

Per doz., 35c; 50 for \$1.35; 100 for \$2.20, postpaid.

CELERY PLANTS

Doz., 25c; 50 for 65c; 100 for \$1.00, postpaid.

PEPPER PLANTS

Doz., 35c; 50 for \$1.25; 100 for \$2.00, postpaid.

FLOWER PLANTS

ASTERS—Fine for late summer and early fall blossoms. Mixed, per dozen, 35c, postpaid.

PANSY—Thrive best in a protected partial shady place. Mixed, per dozen, 75c, postpaid.

GERANIUMS—Mrs. Nutt, finest of the reds. Not prepaid, each, 25c; per 10, \$2.00.

PETUNIAS—No flower has any showier blossoms; so cheerful all summer. Everyone should have a bed. Per dozen, 50c.

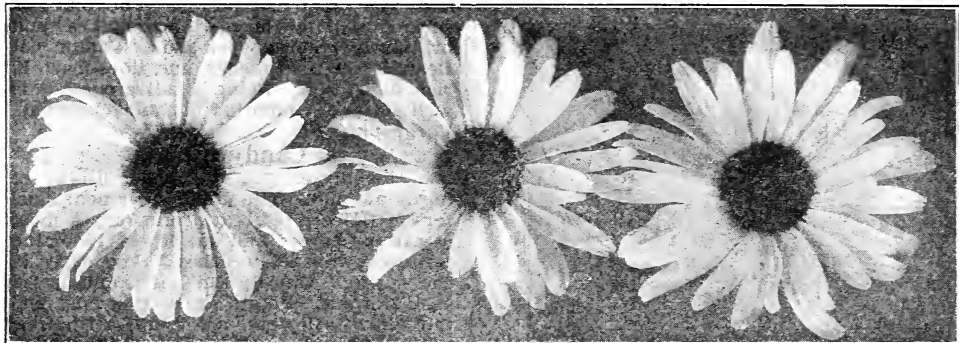

CANNA KING HUMBERT—Orange, scarlet flowers, immense bronze leaves. Each, 15c. Per dozen, dormant roots, postpaid, 1.50.

POTATOES

EARLY OHIO—The standard Potato for the northwest. \$3.00 per bu.

Onida, S. D., June 5, 1926.

"I received the Plants all O. K. and they are just fine."

Flower Seeds

WE have always noticed that when anyone wishes to express a pleasing thought or some fine sentiment that the beauties of nature are always spoken of. We all associate Flowers with perfection and although these words were spoken centuries ago how true they are even today. "Consider the lilies of the field how they grow, they toil not nor do they spin and I say unto you, that even Solomon in all his glory were not arrayed like one of these."

Flowers must be grown to satisfy a craving for the things beautiful and are nearly as essential as things to eat. We must have both to live a balanced life.

Encourage the child to love them as their associations speak louder than spoken words and as impressive as sermons and nothing will do more to shapen the lives of the plastic youths and give them clean thoughts. One rarely finds a youth go wrong who loves flowers. Plant plenty of them for their sake and at the same time to make a better place to live in.

Our packets are not little 5c samples but are generously filled to give value received.

So that the seeds will germinate readily and the plants grow and flower to perfection, attention should be paid to the soil condition and especially if small seeds are sown. The ground should be worked up well and if the soil is heavy lightened up with well rotted manure or sandy loam. If this is not done the soil is apt to become hardened or baked before the tender plants get large enough to take care of themselves. Small seeds must not be planted deep and most flower seeds germinate better if planted near the surface. Sweet peas, sunflowers, beans and some of the larger seeds can be planted fairly deep.

FREE—For every dollar's worth of garden and flower seeds ordered, deduct 10% as a premium. We pay postage on all flower seeds.

Alyssum or Carpet of Snow

Dwarf and compact, grows about 4 inches high. The plants are a solid mass of white from early summer to late fall and is considered the best white flowering edging or border plant grown. Large pkt., 10c.

ASTERS

Queen of Market—Asters are a most valuable type for bedding as well as cutting, as they are the first to come into bloom. Plants grow quite tall and they branch freely near the ground, giving long stems to the flowers. The blooms are well rounded and double. They are of medium size and come in many colors and are very popular for bouquets. Large pkt., 10c; ¼ oz., 40c.

Crego Giant Comet—One of the finest and largest of the Comet Asters, bearing immense fluffy flowers as fine as any Chrysanthemum. All colors. Large pkt., 10c. See Aster Plants under "Flower Plants."

ROYAL—The Royal Asters are of branching type and come into bloom right after the Queen of the Markets have passed. The double flowers are very large, with incurving broad petals. Blooms abundantly and are grown extensively for cut-flowers on account of their long stems and fully double form.

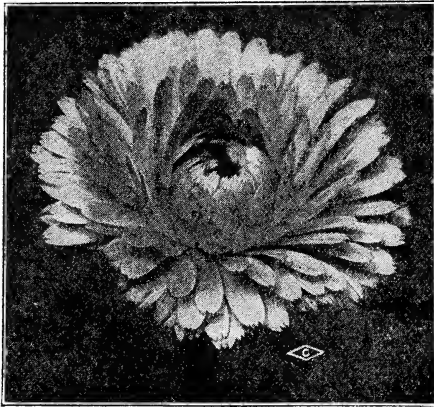

Royal Lavender—A clear lavender shade. Large pkt., 10c.

Royal Pink—Large double flowers of a rich pink color. Large pkt., 10c.

Royal Purple—This deep shade is very beautiful. Large pkt., 10c.

Royal White—A large, well-formed flower with broad white petals. Large pkt., 10c

Royal Rose—The color is a bright luminous rose. Very large and double flowers borne on long stems. Large pkt., 10c.

Calendula

**Royal Asters, Mixed—Large pkt., 10c.
Double Balsam or Lady Slipper**

An old favorite, producing its gorgeous masses of beautiful and brilliant colored flowers in the greatest of profusion. Large pkt., 10c.

Calendulas

One of the dependable hardy annuals that have a wonderful profusion of flowers, colors ranging from ivory to orange. Valuable for bed and borders. Bloom until late fall and are well adapted for outdoor culture. Large pkt., 5c.

Calliopsis

Excellent for cutting and massing. Colors golden yellow and maroon. Very showy, beautiful and free flowering. Large, pkt., 10c.

Chinese Woolflower

The flowers are ball-shaped and resemble a ball of wool. The plants will average 2 feet in height. They branch freely, and by midsummer are simply covered with blooms. It keeps blooming all during the fall and retains its full beauty and color until severe frost. Large Mixed pkt., 10c. Includes the showiest of crimson, yellow and pink.

Castor Oil Bean

This is a semi-tropical looking plant grown largely for the picturesque appearance. The plants grow from 8 to 10 feet in height

and bear immense leaves. The plant is surmounted by large flower-spikes and brilliantly colored seed-pods. Castor Oil Bean is a gross feeder and does best in rich moist soil. Being a tall grower it is well suited for planting in the background. Large pkt., 10c.

Candytuft

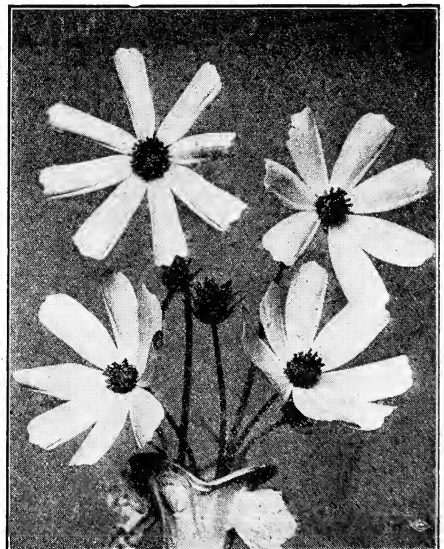

These belong among the most useful of hardy annuals. The plants bear neat clusters of flowers in great profusion. A most attractive border and cut-flower, blooming profusely in cool weather. Sow early in the spring. One of the best annuals for vase flowers. Plants are very bushy and the showy flowers are very attractive. Large pkt., 10c.

Centaurea or Royal Sweet Sultans

The charming sweet scented flowers of many hues are borne on long strong stems and are exceedingly fine for cut flowers. Sow seed in the garden reasonably early. Large pkt., 10c.

Cosmos

Beautiful summer and autumn blooming plants. They produce such a quantity of artistic flowers in pure white, pink and crimson shades, furnishing an abundance of cut blooms for autumn decorations when other flowers are scarce. Should be sown in Spring in the open ground, when danger of frost is past. Thin out so plants are 18 inches apart. When a foot high the tops should be pinched out to induce a bushy growth. They prefer a rather light, not too rich soil, but do well almost anywhere. The colors we have are Crimson, large pkt., 10c; White, large pkt., 10c; Pink, large pkt., 10c, or Mixed Colors, large pkt., 10c; ¼ oz., 25c.

Cosmos

Daisy

African—A handsome showy annual Daisy and which presents a magnificent sight when in bloom and which last through the latter part of the summer and fall. Fine for cut flower purposes. Large pkt., 10c.

Gaillardia

Golden or Blanket Flower—Splendid showy annuals, remarkable for the profusion of their brilliant flowers, continuing in bloom from early summer till November; extra fine for beds, borders, or for cutting; should be sown where they are to bloom. Large pkt., 10c.

Hollyhock

One of the most majestic of hardy plants and a clump or line of our dependable varieties in any garden gives an effect not attainable with any other plant. For planting among shrubbery or forming a background for other flowers, it is without equal. This is a biennial and blossoms the second year. Sow some seed each year and enjoy these extra fine varieties. **Double Mixed**, large pkt., 10c; ¼ oz., 35c. **Single Mixed**, large pkt., 10c; ¼ oz., 30c.

Martynia

Devil's Claw—A fast growing compact and thick leaved plant. The flowers are light purple and very floriferous, in fact about the sweetest scented flower that grows. Seed pods are good for pickles if picked when young and tender. A garden oddity. Large pkt., 10c.

Mignonette

Victoria Perfecto—With its brilliant red spikes is one of the big attractions of any planting. No garden is complete without this fragrant favorite. Large pkt., 10c.

Larkspur

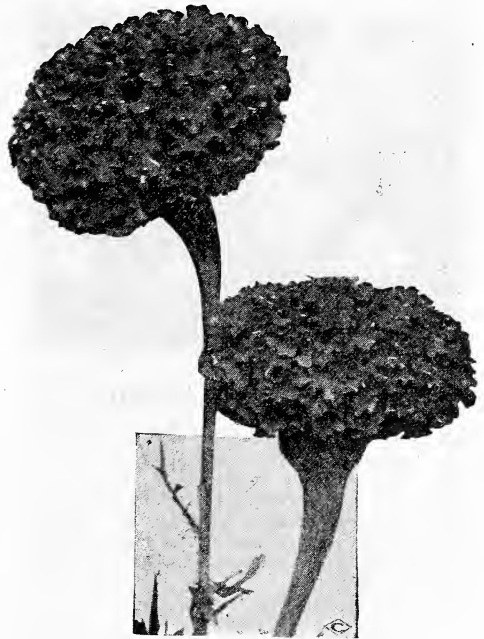

Or Delphinium—The Annual Larkspur furnishes one of the best and most satisfactory blossoms in the whole range of annuals. Colors are so soft and satisfactory and make such attractive bouquets. Our mixture is sure to please. Large pkt., 10c; ¼ oz., 25c.

Marigold

The Marigolds never fail to attract attention and are so easily raised and adapt themselves so readily. Really an optimist among the flowers that radiates good cheer. Our mixture is fine when assembled with the blue of Larkspur or the paler tints of Cornflower, the contrast is so pleasing. Large pkt., 5c; ¼ oz., 20c.

Nasturtiums

Tom Thumb or Dwarf—These bedding nasturtiums are probably the best varieties grown. They are easy to grow and the brilliant blossoms are lasting. Plant in a

Marigold

moderately good soil in a sunny location, until cut down by frost they will bear a profusion of gorgeous blossoms. Large pkt., 10c; per oz., 15c.

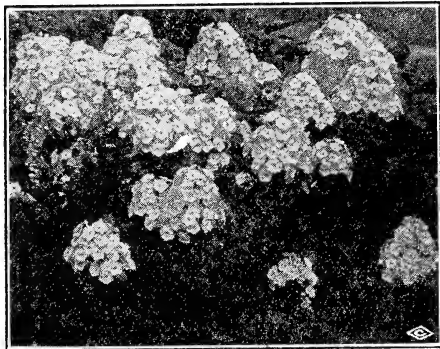

Giants of California—Are the tall growing, ever blooming *Nasturtiums* rich in color and can be used to cover a trellis, fence or trailing over rock work. Large pkt., 10c; per oz., 15c.

Pinks

The blossoms which come in varied colors are sweet, spicy scented, and are like miniature carnations. Foliage is dense and fine and it is considered a most satisfactory garden flower. Large pkt., 10c.

Pansy

The latter part of April is the best time for spring sowing, producing flowers by the last of June and continuously until fall. A well enriched, finely worked soil is best. Seed should be covered not over four times its own depth and takes about 10 days to germinate. When the plants are sufficiently developed, transfer to desired location. Pansies will do well in partial shade. Many people start them in hotbeds or in boxes in the house several weeks before the probable earliest planting time. Large pkt., 10c; ¼ oz., 40c. See Pansy Plants under "Flower Plants."

Phlox—Hardy Annual

This is composed of the finest and most distinct varieties and will make a fine display of brilliant color. The trusses are large, well rounded, and closely formed and the individual florets are of the largest size, firm substance, and most distinct and brilliant colorings. Large pkt., 10c; $\frac{1}{8}$ oz., 25c.

Petunia

For outdoor decoration, porch or window boxes few plants equal the Petunia in effectiveness. They commence flowering early and continue a sheet of bloom throughout the whole season; are easily cultivated but likes good soil and sunny positions.

Long after the hoary hand of frost has cut down other tender flowers the Petunias keep smiling with their fragrant faces and are the last to leave us in the fall.

Can be sown reasonable early outdoors but it is best to sow indoors or in hotbeds and transplant in late May.

Our Superb Mixture—Makes a riot of bloom. Large pkt., 10c; $\frac{1}{4}$ oz., 35c.

Large Double California Petunias—Are truly magnificent and while a little more expensive are well worth the price asked. Pkt., 25c.

See Petunia Plants under "Flower Plants."

Portulaca—Moss Rose

A hardy dwarf annual of easy culture. It thrives anywhere and produces an abundance of brilliant blooms where almost any other plant would die. The flowers are rich and brilliant in coloring. Fine for beds, borders and rock planting. Large pkt., 10c.

POPPIES

Double Peony Shaped Poppies—Are so easily grown that they should be in every garden. The plants grow quickly and produce a wealth of gorgeous blossoms. Sow

the seed thinly early in the spring where the plants are to bloom. The seeds should be barely covered from view. The flowers are excellent for vases and if picked when the buds are just beginning to open they will last a remarkably long time as cut-flowers. Large pkt., 10c; $\frac{1}{4}$ oz., 25c.

California Poppy—The golden satin like flowers are brilliant and beautiful. The foliage is fine and blue green in color. Grows about 12 inches high and there is no flower that attracts more attention than these. Cut the flowers in the bud if used for vase purposes. Large pkt., 10c.

Shirley Poppy—This type is perhaps the most beautiful of all poppies; one sowing keeping the bed alight all summer. Mostly come single or semi-double. The colors range from white, turn various shades of pink, to scarlet and deepest crimson. Mixed, large pkt., 10c; $\frac{1}{4}$ oz., 30c.

Salpiglossis

Painted Tongue—These are one of the finest annuals, and readily grow in any ordinary soil in a sunny position. The plants grow about 24 inches high and produce freely from mid-summer until frost. The most attractive and stunning blossoms in a very large and unusual range of colors. They are splendid for cutting and last well. Seed may be started indoors or in a hotbed about the end of March or sown outdoors when danger of frost is passed. For best results the plants should not be set closer than 12 inches apart. Large pkt., 10c; $\frac{1}{4}$ oz., 40c.

Shirley Poppy

SWEET PEAS

The whole world loves the Sweet Pea and especially the exquisite new Spencers. We are offering the far famed Silver Gilt Medal varieties, the blossoms of which are extra large and colorings magnificent. It is our experience to plant the new Spencers to the exclusion of all others as the rich returns make them by far the cheapest seed to sow. Plant seeds as early as the ground can be worked. A good way is to make a trench 3 inches deep and plant seeds one inch deeper in the trench and gradually fill in the trench as the season advances. Water or irrigate and pick blossoms regularly and you will enjoy bouquets until hard frosts come.

Silver Medal Spencers

Margaret Atlee—Is one of the very finest rich buff pink, a giant in size.

Florence Nightingale—Is a favorite large pure lavender.

King White—Is without question one of the very best of the large pure whites.

Mrs. Tom Jones—Is a large exquisite delphinium blue.

Royal Scot—Is considered one of the largest and most brilliant scarlets ever grown.

Price of all Sweet Peas. Large pkt., 10c; per oz., 30c.

Mixed Spencers—A splendid mixture of all the desirable new orchid flowering Spencers. Large pkt., 10c; per oz., 25c; ¼ lb., 55c.

Fine Mixed—This is the common Sweet Pea and which we are offering to those that do not care for the Spencer or large flowering varieties. Large pkt., 5c; per oz., 15c.

Ornamental Sunflowers

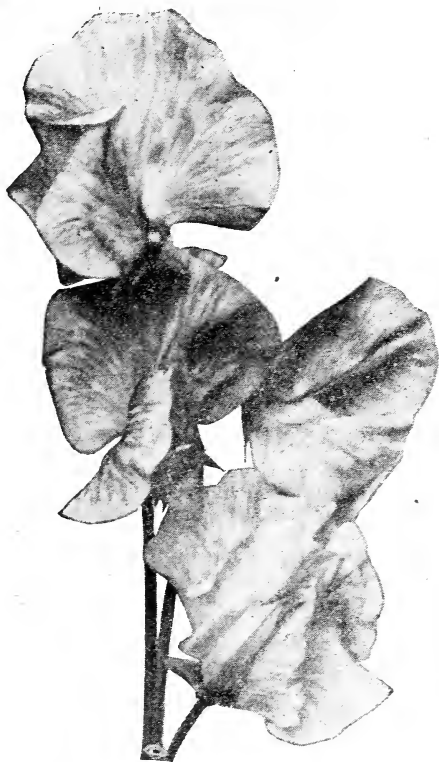

The annual Sunflowers are indispensable for cutting. Sown on a sunny spot about May first they come into bloom early in summer and keep up a constant supply of flowers until cut down by frost. Good for background and windbreak purposes. Large pkt., 5c; ½ oz., 25c.

Snap Dragons

Snap dragons are very popular bedding plants; the richness and diversity of colors, their long blooming season giving them great value for garden color massing, as well as for cutting. They have dark and glossy leaves and curiously pea shaped flowers with marked throats. They bloom in July from seed sown in early May, but for earlier bloom, seed should be started indoors during March. Does best in dry loamy soil. Large pkt., 10c; ¼ oz., 30c.

Scarlet Sage or Salvia

This is by far the largest flowering variety of Scarlet Sage. Well-grown plants measure 4 feet across and 3 to 4 feet high.

Of all fall-blooming annuals, Scarlet Sage is without question, the richest and most impressive in color—a scorching scarlet of unsurpassed brilliancy. Whether grown in the border or in solid beds, it always looks attractive. Pkt., 10c; ½ oz., 50c.

Strawflowers

Strawflowers are easy to grow and do well in nearly any location, but do best if planted where they get sunlight all day long. A moderately moist soil which is fairly rich produces the finest plants and largest flowers.

Sow the seed outdoors and cover with ¼ inch of soil. The seeds will germinate in about 2 weeks after planting, thin them out so they will be about 10 inches apart. The plants make a strong upright growth and bloom profusely during late summer and fall.

Strawflowers are in great demand not only for the fine effect they give in beds and borders, and as cutflowers, but also because they can be dried for winter bouquets. If wanted for this purpose cut the flowers early in the morning while the dew is still on them and hang their heads down in a cool, shady and airy place until thoroughly dry. Large pkt., 10c; ¼ oz., 25c.

Annual Sweet William

In contrast to the ordinary Sweet William, will bloom freely the first year from seed It is strictly an annual. Everyone who grows it is bound to be pleased with its wide range of attractive colors. Height, 15 inches. Large pkt., 10c; $\frac{1}{8}$ oz., 30c.

Verbenas

For an ideal bedder there is nothing better than Mammoth Verbenas. A graceful plant with handsome foliage and covered with large umbels of brilliant blooms in a great variety of colors. Verbenas are particularly fine for beds, borders, mounds, window boxes, etc., or as an undergrowth to tall plants and will bloom continuously until frost. Large pkt., 10c.

ANNUAL VINES

Balloon Vine or Love in a Puff—Is a rapid climber; flowers white. The interesting seed pods look like miniature balloons. Large pkt., 10c.

Cyprus Vine—Has a delicate fern like foliage and masses of beautiful scarlet and white flowers. Seeds should be soaked in warm water for a few hours before planting. Large pkt., 10c.

Gourds—These are used generally as annual climbers or can be planted in the garden. They bear fruits known as ornamental gourds and come in many different fantastic shapes and colors. Mixed, large pkt., 10c.

Morning Glory—The old favorite climber with their brilliant and beautiful flowers cannot be surpassed. Soaking the seeds

a few hours in warm water will hasten germination. Large pkt., 10c.

Scarlet Runner Beans—A favorite ornamental annual climber. The scarlet colored blossoms are very attractive. The beans that follow are excellent eating. Sow the seeds after danger of frost. Large, pkt., 10c.

Hyacinth Bean—A rapid growing annual climber, climbing to about eight feet. They bloom freely in large, upright racemes of pea-like purple flowers; followed by ornamental purple seed pods. Sow about May 15th or after danger of frost. Mixed, large pkt., 10c; $\frac{1}{2}$ oz., 15c.

Zinnia—Dahlia Flowered

There are but few flowers that are more popular than the immense flowering double Zinnias and no flower is as showy during the late summer and early fall. Easy of culture as the seed can be sown where the plants are wanted and they will continue blossoming long after light frosts. No flower stands the hot summer conditions better. Fine for massing.

Ipswich is noted for its Zinnias and the Zinnia beds always attract a great deal of attention. We have these large double Zinnias in the following separate colors.

Golden Yellow, White, Rose, Purple and Scarlet. Large pkt., 10c; $\frac{1}{4}$ oz., 40c.

Superb Mixture—All the different colors. Large pkt., 10c; $\frac{1}{4}$ oz., 30c.

Strool, S. D., April 29th.

"Of all the nursery stock set out here in past years, yours is all that survived the drought and the hard winter. Some living testimonial that your stock is hardy."

Lawn Grass

Kentucky Blue Grass

Our lawn grass is pure Kentucky Blue Grass. No mixture of old seed or substitutes. It is fancy heavy 1926 seed and is the best that can be bought.

To get a good stand, buy our pure Kentucky Blue Grass and after sowing it broadcast, rake in the seed and keep the surface damp until the grass shades the ground.

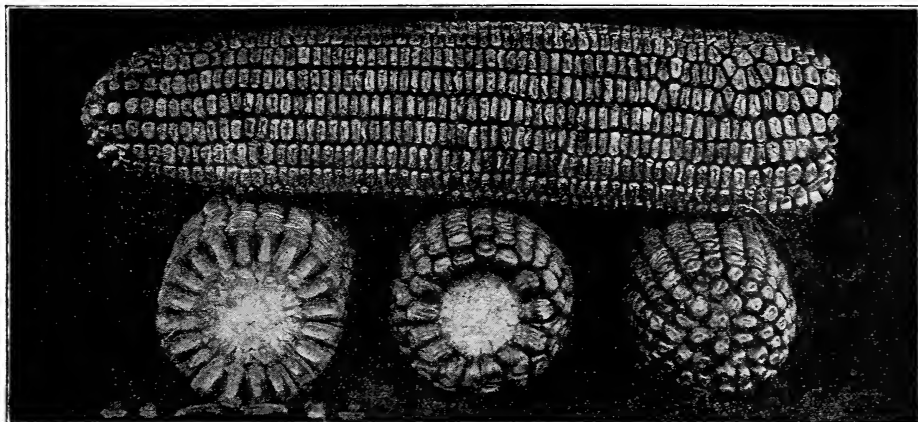

Price: 1 lb., 6c, postpaid. By express or freight, 5 lbs., 55c; 10 lbs., 50c.

White Dutch Clover

Extra fine to mix with Kentucky Blue Grass for the lawn. The clover helps to protect the tender grass shoots until it becomes established, enriches the soil and makes the grass grow better. Price: 1 lb., 65c, prepaid.

FREE—For every dollar's worth of garden and flower seeds ordered, deduct 10% as a premium.

SEED CORN

IN ALL our experience selling Seed Corn we have never had a complaint, nor have we ever had any seed returned on account of poor germination. We are going to try to keep this record. It costs more to prepare and send out good seeds but when there are no complaints it pays us many times in satisfaction for the difference in cost.

Seed Corn is a mighty ticklish seed to handle and especially will it be so this year. The early September freeze destroyed the germ of practically all standing corn and there will not be a surplus of A No. 1 seed offered, especially the hardy northern grown seed.

Good Seed Corn is cheap at any reasonable price. Taking acreage into consideration will be the cheapest seed to plant in 1927. Our experience has been never try to save buying cheap seed as it means a poor stand and inferior yields.

CORN MUST BE NORTHERN GROWN TO MATURE IN THE NORTHWEST. Southern or Eastern seed may be alright for silage purposes and there is apt to be a lot shipped north this year.

Looks are deceiving sometimes. We have tested out a great many fine samples and some of the good looking ones test as low as 20% so beware of what you plant.

Our Seed Corn is sold on a money back guarantee. Test it, or any of our seeds for that matter, and if it does not germinate to your satisfaction return it and get your money back including freight charges.

We feel that we cannot have any dissatisfaction even if we do not do the volume of business and another thing we have not taken a lot of early orders expecting to dump any old seed upon our customers at the last minute.

DENT CORN

FULTON'S YELLOW DENT—This variety we have was selected for years for earliness and it is this strain that has taken most of the prizes at the corn shows for the past few years. Has a deep kernel and is a heavy yielder. A limited supply. Price per bu., \$5.50; 3 or more bu., \$5.00 per bu.

MINNESOTA NO. 13—Originated by the Minnesota Agricultural College. An extra good corn for silage and a heavy yielding yellow dent. This strain has been selected for earliness and will mature much earlier than average Minnesota No. 13. Price, per bu., \$5.00; 3 or more bu., \$4.75.

SOUTH DAKOTA NO. 86—This is a selection of the Minnesota No. 13 by the S. D. Experiment Station. We have grown this variety for the past six years and believe it is one of the best yellow dents. Matures early and is like its parent in every way except that the ears are a trifle smaller. Very little to offer. Price per bu., \$5.50; 3 or more bu., \$5.00 per bu.

WISCONSIN COLD RESISTANT—A selection of the Golden Glow made by the Wisconsin Experiment station. This corn has been bred for hardiness as to early planting, withstands cold and wet ground conditions and can be planted much earlier than the average corn. Our own grown. Price per bu., \$6.00; 3 or more bu., \$5.50 per bu.

NORTHERN YELLOW DENT—A very early maturing corn. Not as pure as the above varieties but for a late season or for replanting cannot be beaten. It has never failed to mature a crop here. Price per bu., \$4.50; 3 or more bu., \$4.25 per bu.

NORTHERN WHITE DENT—A variety that has been grown here for years and never fails. Good for hogging off purpose. Not pure white dent but a corn that has been selected for years for earliness. If cutworms take your first planting, replant with this variety or the Northern Yellow Dent. Price per bu., \$4.25; 3 or more bu., \$4.00 per bu.

NORTHWESTERN DENT—An extra early red dent, planted very extensively. Matures early and is a very satisfactory and popular corn. Price per bu. \$4.50; 3 or more bu., \$4.25 per bu.

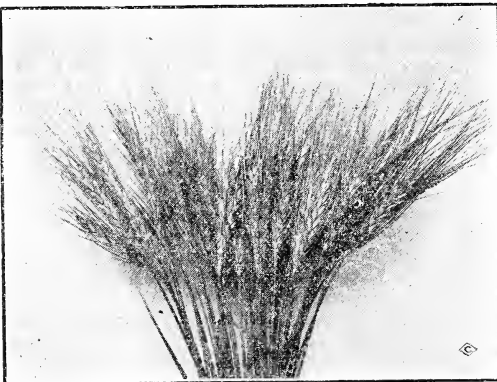

We have some corn that will be O. K. to drill in that does not quite test up to standard that we will sell reasonable. If interested write us and we will give you particulars.

FLINT CORN

Flint Corns are scarce this year and with the extra demand are a little higher in price than ordinarily. Nothing better to hog off as it ripens early.

RAINBOW FLINT—The most popular flint corn grown. Grows an extra large ear high on the stock. One of the best of the fodder corns. This strain has been grown here for many years and has matured here every year. Very scarce. Price per bu., \$7.00; 3 or more bu., \$6.50 per bu.

WHITE FLINT—An early maturing large yielding white flint. Fine for hogging off. Price per bu., \$5.00; 3 or more bu., \$4.50 per bu.

Kota Wheat

MIXED FLINT—This is a heavy yielder of large long ears. Good for hogging off. Price per bu., \$5.00; 3 or more bu., \$4.75 per bu.

SQUAW FLINT—This is the old reliable mixed flint that has been the standby for hogging off. Ears grow close to the ground. Price per bu., \$4.75; 3 or more bu., \$4.50 per bu.

POP CORN

WHITE RICE—Raised locally. The standard popular corn, easy to raise and a good yielder. Price per pound, 15c; 10 pounds, 1.25; 25 pounds, \$2.00.

Popping Corn—Write for low price.

JAPANESE HULLLESS—The finest of the pop corns. The kernels when popped are large and clear white. Very popular. Price 25c per pound; 10 pounds, \$1.50.

THE NEW BURBANK—A new creation by the plant wizard. Pops out pure white, is very sweet and of immense size. On account of its sorghum parent, it will grow on poor land and will withstand droughty conditions. Pkt., 10c; 1 lb., 65c.

Wheat

Wheat, although an alluring crop, is one of the essential small grains for the northwest. It is the cash crop and tides over the grower until he can realize on his stock and other produce.

It pays to sow as early as the ground can be worked in the spring and to sow varieties that are rust proof and rust resistant, especially for the main crop. All of our seed is run through the new Carter Disc Separator to remove any wild oats or other impurities and is ready to sow.

BURBANK or QUALITY—This new wheat which was originated by the great plant wizard a few years ago is becoming very popular. It is an immense yielder of large kernels. The one big thing about this variety is that it is the earliest wheat to mature and thereby gets away from the rust. We have a limited supply of 1925 crop. Price per bu., \$2.50; 5 or more bu., \$2.25 per bu.

KOTA—This strain of hard wheat was originated by the N. D. Agriculture Station and is very rust and drought resistant. It is one of the best yielders and is the most popular wheat grown in both North and South Dakota. We are offering 1925 crop and while a little higher in price than the new crop is well worth the difference. Price per bu., \$2.50; 5 bu., \$2.25 per bu.; 10 or more bu., \$2.10 per bu.

MARQUIS WHEAT—The best of the milling wheats but subject to rust. Should be sown as early as possible. Price per bu., \$2.50; 5 bu., \$2.25 per bu.; 10 bu. or more, \$2.00 per bu.

PEARSON 999 AMBER DURUM—An improvement of the Kubanka and the best of the durumms. An enormous yielder and a good rust resister. The seed we are offering is our own particular strain. Price per bu., \$2.50; 5 bu., \$2.25 per bu.; 10 or more bu., \$2.10 per bu.

RED DURAM—One of the most rust resisting wheats grown. Can be sown later than any other variety. Is a sure and big yielder. Price per bu., \$2.25; 5 bu., \$2.00 per bu., 10 bu., or more, \$1.85 per bu.

KANRAD WINTER WHEAT—Must be sown in the fall. Write for price after harvest.

Oats

HULLESS OATS—A new variety that is becoming quite popular. Threshes out like wheat or rye and when ground makes one of the best concentrated foods for young pigs and calves. It is a good yielder of the richest kind of feed, and very high in protein content. Price per bu., \$1.50; 3 or more bu., \$1.25 per bu.

SIXTY DAY OR KERSON OAT—Recommended by the experiment station for the main crop. Matures and ripens usually before the wild oats do. A good yielder and the surest variety to grow if the season happens to be a little dry. Price per bu., \$1.00; 10 or more bu., 80c per bu.

SWEDISH SELECT OATS—One of the very best medium early oats grown. An enormous yielder of large plump kernels. Price per bu., \$1.25; 5 bu., \$1.00 per bu.; 10 or more bu., 90c per bu.

MIXED OATS—This is locally raised early oats and is a sure cropper. Seed oats are scarce this year and we would advise ordering early. Price 75c per bu. in quantity lots.

Millet

If millet is sown on old land it should be plowed and dragged early. Then after the

weeds start the land should be disced and dragged before the seed is sown. If the land is extremely weedy and the season is not too late it will pay to disc and drag the third time before sowing.

BROOM CORN—The standard millet grown for seed production. Very high feeding value for hogs, cattle and poultry. A good drought resister. Price, 1 lb., 20c; 10 lbs., 75c; 50 lbs., \$2.00; 100 lbs., \$3.50.

EARLY FORTUNE—Quite similar to Broom Corn millet except that the seed is red. One of the best of the millet family. Seed excellent for stock and poultry and the fodder after threshing is the best of feed. For hay purposes much better than Broom Corn millet as it does not grow as coarse. Price per lb., 20c; 10 lbs., 75c; 50 lbs., \$2.25; 100 lbs., \$4.00.

GERMAN MILLET—One of the very best for hay purposes. Southern grown seed. Price, 10 lbs., \$1.00; 50 lbs., \$2.75; 100 lbs., \$4.50.

JAPANESE—Sometimes called billion dollar grass. Makes a heavy growth and in moist seasons will cut two or more crops. Is better for horses than the other millets. Price, 1 lb., 25c; 10 lbs., \$1.25; 50 lbs., \$3.00; 100 lbs., \$5.00.

SIBERIAN—The most popular millet for hay purpose. A good drought resister. Not only makes splendid hay but is a reliable seeder. Price, 1 lb., 25c; 50 lbs., \$2.25; 100 lbs., \$4.25.

RUSSIAN OR SERBIAN MILLET—A new variety introduced lately. If sown in rows and cultivated the heads will measure from 12 to 15 inches long yielding an enormous amount of seed. On account of the seed being about the same size as pigeon grass it must be sown on clean land or sown in rows and cultivated. Price, pkt., 10c; 1 lb., 40c.

Early Amber Cane

Cane

Early Amber

Probably the most profitable and popular forage crop grown. It yields an enormous crop of succulent feed that is greatly relished by all stock. It can be broadcasted or drilled in and cultivated. The latter is the surest way to realize a big yield. It is the best drought resister grown. For best feeding value it should be cut when the heads commence to turn black. Sow 10 to 12 pounds when cultivated and about 50 pounds when broadcasted to the acre.

Price, 10 lbs., 75c; 25 lbs., \$1.75; 50 lbs., \$2.50; 100 lbs., \$4.25.

SUGAR CANE—For making sorghum or syrup. Price, per lb., 25c; 10 lbs., \$1.00; 25 lbs., \$2.00.

FETERITA—The most drought resisting sorghum grown, related to Kaffir. Excellent forage and seeds fine for poultry and stock. Sow 12 to 15 pounds if drilled and cultivated and 50 to 60 pounds if broadcasted. 10 lbs., 75c; 50 lbs., \$2.50; 100 lbs., \$4.25.

Barley

Good seed Barley is rather scarce this season and we would advise ordering your needs early. Price per bu., \$1.25; 5 bu. lots, \$1.15 per bu.; 10 or more bu., \$1.00 per bu.

Speltz

One of the very best all around feeds grown and especially for poultry and horses. Price, \$2.75 per 100 lbs.; \$2.45 per 100 lbs. in 300 or more lots.

Flax

This is the northern grown hardy variety and especially adapted to the northwest.

Price per bu., \$3.50; 5 bu., \$3.25 per bu.; 10 or more bu., \$3.00 per bu.

Buckwheat

Silver hulled, an improvement of the old sort. A great yielder. One of the best crops to grow to smother out weeds. Also fine for bees when in blossom. One of the very best of poultry feeds that is grown. Grow more buckwheat and make your own flour.

Price per bu., \$2.50; 5 or more bu., \$2.25 per bu.

Bromus Grass

One of the very best permanent pasture grasses grown, will stand more droughty conditions than any other variety and is an enormous yielder. Starts growing very early in the spring and will keep green, if pastured, the last in the fall. Highly recommended by all the experiment stations of the northwest. Sow about 20 lbs. to an acre.

Price, 5 lbs., 75c; 10 lbs., \$1.50; 50 lbs., \$7.00; 100 lbs., \$13.50.

KENTUCKY BLUE GRASS—See page 18.

Sudan Grass

This is one of the best forage plants grown. Can be grown to advantage on clean or new ground by sowing it broadcast or drilling it in and can be cut several times during the summer. It takes about four pounds to plant an acre if planted in three foot rows and cultivated and we would be inclined to recommend planting it this way. Sow twenty to twenty-five pounds if broadcasted.

Price per lb., 25c; 5 lbs., 75c; 10 lbs., \$1.50; 20 lbs., \$2.50; 50 lbs., \$4.75; 100 lbs., \$8.50.

Timothy

Is one of the standby hay crops. Does not stand much pasturing and is best suited to cut for hay. Timothy and clover is a rich combination and if any land is commencing to get worn out it will be greatly benefitted by seeding down to this mixture.

Price of Timothy, 1 lb., 25c; 10 lbs., \$1.50; 20 lbs., \$2.75; 50 lbs., \$6.00.

Western Grass

WESTERN OR SLENDER WHEAT GRASS

—Is one of the very best hay grasses for the northwest. Very drought resisting and is relished by all stock. Where Kentucky Blue Grass cannot be grown to advantage try Slender Wheat Grass for lawn purposes. 1 lb., 25c; 10 lbs., \$1.50; 50 lbs., \$5.00; 100 lbs., \$9.00.

Alfalfa

There is nothing that equals alfalfa hay. Good for all kind of stock including hogs and poultry and every farmer should have a field. Care should be taken not to pasture or cut it too late in the season.

DAKOTA NO. 12—This is hardy northwestern South Dakota grown seed from old fields that have stood the severe winters and dry summers and is the variety that is generally more planted than any other. Known as Dakota No. 12. Price per lb., 35c; 10 lbs., 30c per lb.; 20 lbs., 27c per lb.; 50 lbs., 25c per lb.; 100 lbs., 22c per lb.

GRIMM ALFALFA—Grown in northern South Dakota. The hardest of all alfalfas. We are pricing this at a low figure this year and anyone figuring on a permanent alfalfa field should take advantage of this price and make a good planting. Price per lb., 60c; 10 lbs., \$5.00; 25 lbs., 40c per lb.; 100 lbs., 35c per lb.

COSSACK ALFALFA—This is a hardy variety brought from Siberia by Professor Hansen. It is a good yielder and very cold and drought resistant. From a handful of seeds brought over a few years ago it now covers thousands of acres. It has a branching root system similar to Grimm. Lb., 65c; 10 lbs., \$5.50; 100 lbs., \$40.00.

Red Clover

RED CLOVER—Very valuable for forage and for plowing under for fertilizing purposes cannot be equaled. This is genuine northern South Dakota raised seed and is hardy and dependable. Price, 1 lb., 60c; 25 lbs., 55c per lb.; 50 lbs., 50c per lb.

Sweet Clover

WHITE BLOSSOM—Is one of the easiest of the clovers to get started and outyields any other variety for pasture purpose. Stock like it better when pastured close. It starts growing early in the spring and stays green until late in the fall. Another advantage, stock will not bloat on sweet clover. Sow about 10 lbs. to the acre. Price for scarified northern grown seed, 1 lb., 25c; 10 lbs., 18c per lb.; 20 lbs., 15c per lb.; 50 lbs., 14c per lb.; 100 lbs., 13c per lb.; 200 lbs., 12c per lb.

YELLOW BLOSSOM—Has a finer foliage and is more dwarf than the white blossom

Red Clover

variety and probably makes a little better hay. It can also be pastured a little closer than the other varieties. Price per lb., 25c; 10 lbs., 18c per lb.; 20 lbs., 16c per lb.; 50 lbs., 15c per lb.; 100 lbs., 14c per lb.

GRUNDY COUNTY WHITE BLOSSOM SWEET CLOVER—This resembles the white blossom in every way except it is more dwarf and does not get as coarse. Fine for pasture and hay. Price per lb., 30c; 10 lbs., \$1.75; 50 lbs., \$8.00; 100 lbs., \$15.00.

White Dutch Clover

Fine to mix with Kentucky Blue Grass for lawn. Makes good pasture and bee food. Sow 5 pounds to the acre. Price per lb., 65c; 5 lbs., 60c per lb.; 10 lbs., 55c per lb.

Rape

An annual plant of the cabbage family. Grows readily alone or with a nurse crop and is considered one of the best pasture plants for all kinds of stock, especially valuable for hogs and sheep. When eaten off will sprout up from near the ground and keep growing until cut down by hard frosts. Sow about 8 lbs. to the acre. Price per lb., 25c; 10 lbs., \$1.50; 25 lbs., \$3.25; 50 lbs., \$5.50; 100 lbs., \$10.00.

Soy Beans

WISCONSIN BLACK—An early maturing bean and a good yielder. This seed being acclimated will mature and be more satisfactory than the southern seed and worth much more. Plant with the corn planter, being careful to stir up the corn and beans at the end of every row. This is for hogging off purposes and silage. If seed is wanted plant alone. Price, 10 lbs., \$1.25; 25 lbs., \$2.50; 50 lbs., \$4.25.

POULTRY DEPARTMENT

QUEEN BROODER—1200 chick size and one of the very best brooders on the market, with automatic heat control. Complete, each, \$20.00.

BABY CHICKS—Barred Rocks. \$16.00 per 100, prepaid. Order early.

BARRED ROCK EGGS—The old standbys. Ours are the large growthy kind. This is the only variety we have. Cockerels for sale after September 1. Eggs, \$1.25 for setting; \$3.00 for 50; \$5.00 for 100, prepaid.

CHICK FEED—This is our own balanced mixture of mixed grains and cracked corn and is sold very reasonable. Price, \$2.25 for 50 lbs.; \$4.00 for 100 lbs.

CHARCOAL—Mixed with poultry mash will keep the chicken's digestive organs in good condition. Price, 10 lbs., 85c; 50 lbs., \$3.25.

BUTTERMILK CHICK STARTER—No better starter on the market. Mixed with the right ingredients with pure grains that will start the chick off right. 50 lbs., \$2.50; 100 lbs., \$4.50.

EGG MASH—A scientific mixture recommended by the leading poultry raisers. 50 lb. bags, \$1.75; 100 lb. bags, \$3.25.

BRAN AND SHORTS—From a small mill, as they cannot separate as close as the large mills, it contains much more feed value. Sold in 100 lb. bags. Cracked, Ground and Whole Corn at market prices. Write for prices.

POULTRY FEEDS of all kinds including Gold Medal and Puriana Feeds.

SUNFLOWER SEED—Mammoth Russian, extra large headed. A fine feed and conditioner for poultry. Nothing equals it for fitting poultry for show purposes. Also fine for silage. Price per lb., 20c; 10 lbs., \$1.25; 20 lbs., \$2.00.

OYSTER SHELLS—100 lb. sacks, \$1.50.

ZENOLEUM—Is the best disinfectant and dip on the market. Nothing equals it for spraying and cleaning up diseases in poultry and hog houses, barns and outbuildings, dipping stock for vermin and skin diseases. Fifty experiment stations of the U. S. recommend it. Sold on a guarantee. Price, 1 qt. can, 75c; ½ gal. can, \$1.25, prepaid.

ZENOLEUM—Lice Powder, 1 lb. can, 30c, prepaid.

REVENGE LICE DESTROYER—The most powerful louse destroyer on the market. Is instant death to these pests. Effective for lice on horses or cattle and fleas on dogs. 3 lb. can, prepaid, \$1.00.

SAL-VET POULTRY TONIC—Excellent to tone up the chickens and make them lay. Price 65c for a 3 lb. package, prepaid.

SAL VET

Without exception this is one of the very best mineral conditioners and tonics made. Nothing will equal it for getting rid of worms. Good for all kinds of stock but something absolutely necessary to feed hogs to destroy worms and keep them in the pink of condition so they will not become susceptible to cholera and swine plague. Nothing more reliable.

Price, 10 lbs., \$1.50; 40 lbs., \$3.25; 50 lbs., \$4.00; 100 lb. kegs, \$6.75.

BIRD SEED

We have a very fine mixture of bird seed composed of Canary, Rape, Hemp and Millets. Price per lb., 20c; 10 lbs., \$1.50; 20 lbs., \$2.50.

Canary Seed—In bulk, 1 lb., 20c; 5 lbs., 90c; 10 lbs., \$1.75.

Bird Rape—In bulk, 1 lb., 20c; 5 lbs., 90c; 10 lbs., \$1.75.

Bird Hemp—In bulk, 1 lb., 20c; 5 lbs., 90c; 10 lbs., \$1.75.

Bird Millets—In bulk, 1 lb., 15c; 5 lbs., 60c; 10 lbs., \$1.00.

FEEDS OF ALL KINDS

Mill Feeds, Oil Meal, Tankage, Pig Meal, Dairy Feeds, at lowest prices.

BLATCHFORD'S CALF FOOD

Nothing better and cheaper to use. 25 lbs., \$1.50; 50 lbs., \$2.50.

SALT

All kinds for all purposes. Medium, Coarse, Rock, Fly Salt, Block Salt, etc., at lowest market prices.

OLD HICKORY SMOKED SALT—No smoke-house necessary and meat cured with Old Hickory keeps better and has a better taste. Also fine for cooking. Send for sample. 10 lb. drum, \$1.25, postpaid.

NITRAGIN

It pays big dividends to inoculate Alfalfa, Clover and Soy Bean seeds with Nitragin. Price for ½ bu. size can, 60c prepaid; 1 bu. size can, \$1.00 prepaid;

5 bu. size can, \$4.50 prepaid.

We are thoroughly convinced that inoculating alfalfa and clovers is the biggest investment a grower can make. We thought a few years ago that it was mostly theory but from actual tests we know that the fields where the seed was inoculated made a much larger and healthier growth and less liable to winter kill.

CERTIFICATE OF NURSERY INSPECTION

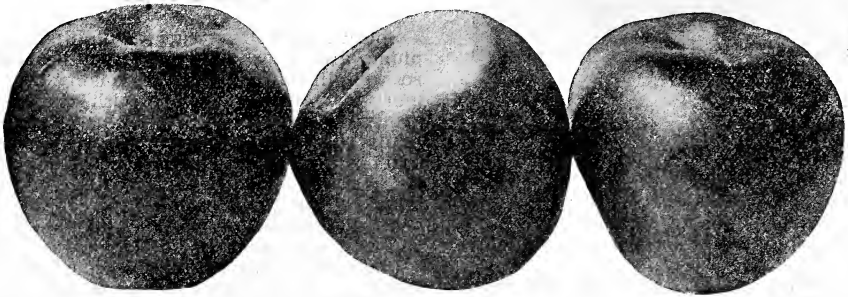

Office of Secretary of Agriculture

Pierre, S. D., Sept. 4, 1926.

THIS IS TO CERTIFY that the nursery stock growing in the Northern Seed and Nursery Co., of Ipswich, South Dakota, has been inspected by John Hetland, duly appointed inspector of this office, in accordance with the provisions of Chapter 7, Session Laws of 1917, State of South Dakota and permission is hereby granted said nursery to sell and ship nursery stock which has been officially inspected and found apparently free from injurious insects, Arachnids, worms and dangerous plant diseases. This certificate is valid until July 1st, 1927 unless revoked.

Resident Nursery Certificate No. 260.

Department of Agriculture,
John Hetland, Nursery Inspector.

APPLES

The best liked and the healthiest fruit that grows. A ripe apple picked from the tree has a flavor that cannot be forgotten. There are quite a few varieties that do exceedingly well in the north and with just a little care will soon grow up and bear abundantly. But to avoid disappointment be sure to stick to the hardy kinds that are recommended by the experiment stations. If any variety that has any merit and is hardy we will list it. Then, what is more appealing than an apple tree loaded with its pinkish white fragrant blossoms.

Cultivate around your apple trees as well as any other planting you make.

Keep in mind the planting of corn. Where corn will grow you can expect apple trees to do well. You never expect to mature a stock of corn if planted in the sod, so don't expect a tree to perform a miracle if planted like a fence post.

We have an extra fine lot of transplanted apple trees this year with fine roots and which will please you immensely. We are pricing the hardy dependable varieties only at a very low figure.

ANOKA—This new variety was originated by Prof. Hansen and is really one of the most wonderful apples for the great northwest. The one big outstanding trait about

this apple is that it bears while it is very young. We have seen an Anoka set out two years that bore nearly a bushel of ripe apples. The fruit is medium in size and resembles the Duchess in taste and appearance. We would like to see Anoka trees in every planting, so that we can prove that it pays to raise apples. Price, each, 65c; per 5, \$3.00.

ANISISM—Trees grow upright and bear profusely, hardy and free from blight. Fruit medium size, dark red and of good quality.

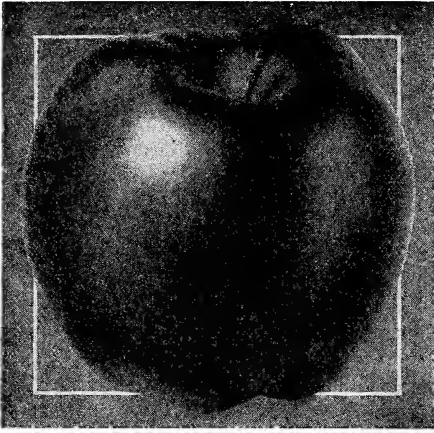

CHARLAMOFF—Hardy, thrifty, early and regular grower. Green splashed with red, hangs on tree well. A choice dessert apple.

DUCHESS—A favorite early apple. A good bearer of large green apples, striped with red. Fine for apple pie. One of the most popular.

HIBERNAL—The hardiest of all apples. The best for top working. Bears large green apples and the best of all pie apples.

OKABENA—Originated by H. J. Ludlow, a pioneer horticulturist, in Minnesota. Quite similar to Duchess. Worthy of a place in any orchard.

PATTEN'S GREENING—A vigorous and thrifty spreading grower and a good bearer of green apples that later turn yellow. Good keeper and one of the best for the northwest.

WEALTHY—The best of the large apples for eating. Fruit red and a good keeper. Originated in Minnesota and rightly considered the most popular apple grown.

YELLOW TRANSPARENT—Hardy grower of the earliest of the summer apples. A fine cooking and one of the most delicious of all when ripe.

Price for all apples 3 to 5 feet, 50c each; per 10, \$4.00.

We have a few large sized Hibernial, Paten's Greening and Wealthy for sale at \$1.00 each. Well worth twice as much and if you desire the larger trees to plant, order some of these as they will please you.

CRAB APPLES

FARIBAULT—One of the very best of the crabs. Trees a spreading and thrifty grower. Fruit yellow, splashed with red.

We have grown this variety for years and we never failed to have a crop every year.

FLORENCE—A hardy, spreading tree, bearing very young and very heavy. Fruit medium size, carmine colored. Flesh yellowish, excellent for cooking. Considered one of the best crabs grown.

MINNESOTA—Fruit medium in size, greenish yellow splashed over with reddish stripes. Flavor mild and sweet.

RED SIBERIAN—Hardy and fine for jelly. Fruits rather small.

TRANSCENDENT—Originated in Russia. A good bearer of firm and juicy fruit. Very popular and one of the standard crabs.

WHITNEY NO. 20—An upright, hardy and healthy grower. Fruit rather large, color nearly red when ripe. Becomes mellow if left too long on the tree. One of the very best eating apples we grow. A fine canning and jelly crab.

EARLY STRAWBERRY—An old time favorite. Fruit medium in size, greenish yellow splashed over with reddish stripes. Flavor mild and sweet.

YELLOW SIBERIAN—Heavy bearer. Good for canning and jelly. Fruits rather small. Price for Crabs, 3 to 5 feet, 50c; per 10, \$4.00.

DOLGA—Prof. Hansen's new crab. Bears young and is prolific. Fruit oblong and bright red. Extra fine for jellies and pickling. An outstanding variety. Price, 65c; per 10, \$5.00. 5 or more apple trees at 10 rate.

PLUMS

South Dakota is a natural plum state and plums are so easy to raise and the fruit is so well liked that it is surprising that not more are raised. Failure with sturdy well grown trees that we are selling is very unlikely. If planted in groups or near one another, they seem to pollinate better. Plum trees start to bear generally the first year after setting them out. Our trees are budded and grafted on native plum stock and you will find them perfectly hardy.

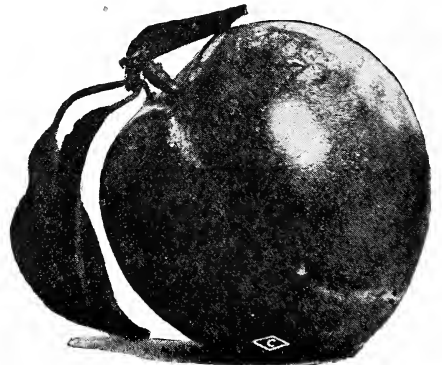

Plant in cultivated land or where you can irrigate. Keep all sprouts hoed out.

DE SOTO—The standard hardy plum. Fruit medium. Color red when ripe. Flesh yellow and firm. An excellent variety for home use. Liable to overbear, in which case the fruit should be thinned out.

SURPRISE—One of the finest American plums, large, juicy and sweet. Good keeper. Considered one of the very best that grows.

TERRY—One of the largest of American plums. Fruit bright red, flesh firm, ripens in September. We do not think it is quite as hardy as the others listed.

WOLF—A very hardy and desirable plum. Fruit about the same size as De Soto, having a small pit. Has pleasant acid flavor.

WYANT—A thrifty grower making a fine tree for the orchard. Is a heavy bearer of good sized fruit. Color yellow and red. Ripens before the De Soto.

Plum prices, 3 to 5 feet transplanted, 65c each; 5 or more 60c each.

HANSEN'S PLUMS

We consider the following varieties as Prof. Hansen's best plums, that have stood the test for growing and bearing and everyone should grow them. The Opata and Sapa should be headed low and left to grow in a bushy form. All are perfectly hardy.

HANSKA—A thrifty grower with an apricot flavor. The fruit is large, color bright red and extra fine for canning.

OPATA—Very prolific, bears early in life, color of fruit, dark purple with small pit, pleasant tasting. We place this variety our first choice.

SAPA—Cross between the sandcherry and a Japanese plum. Fruit has glossy dark purple skin and rich dark purple-red flesh. Excellent for canning.

TOKATA—A large fine flavored plum. Has a rich orange red skin and flesh. Good both for eating and canning.

WANETA—Prof. Hansen's latest and best plum. As large as the California plum and better tasting. Color of fruit, red. Extra fine in every way.

Price, 3 to 5 feet transplanted, 65c each; 5 or more, 60c each.

COMPASS CHERRY

COMPASS CHERRY—This is one of the most reliable and best bearer of any of the plums. Fruits first year after setting out. Makes the most excellent jelly and preserves. No planting is complete without Compass Cherry. Price, 3 to 4 feet transplanted, 65c; per 5 or more, 60c each.

HANSEN'S IMPROVED SAND CHERRY

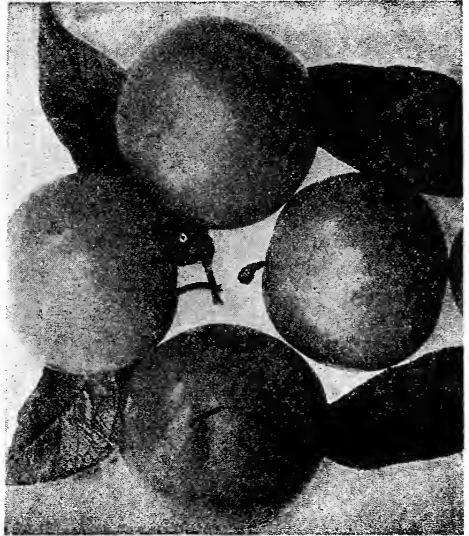

This is a selection of the native Sand Cherry. Is much larger and juicier. It is excellent for preserves and fine to eat when fully ripe. Should be in every garden. All sand cherries are rather short lived and should be replaced every few years. Each, 35c; per 5, \$1.25.

ZUMBRA CHERRY

ZUMBRA CHERRY—Is a production of the Minnesota Experiment Station and is a cross between a sweet cherry, sand cherry and pin cherry. Is very productive and good for preserves. Should be grown in bush form. Each, 65c; per 5 or more, 60c each.

NUTS

HAZELNUT—A native shrub from Minnesota. Hardy but seems to thrive better if planted where it will have some little protection. Each, 50c.

Opata Plum

BLACK WALNUT—Grows to be a beautiful shaped tree and bears well after the tree starts growing good. We have had trees bearing for quite a few years. Small transplanted trees. Each, 25c.

NATIVE FRUITS

Distance lends enchantment and it is a great temptation to all of us not to order or buy some tree, fruit, shrub or flower after looking at the fancy colored pictures of the many catalogues, never taking into consideration whether it has been tried out or will withstand our northern conditions. We are apt to neglect the native fruits and which are very popular where they do not grow naturally and reminds us somewhat of the olden saying "A prophet is not without honor save in his own country." Try some of the following and be convinced they have lots of merit.

BUFFALO BERRY—Price each, 25c; per 10, \$2.00.

BLACK CURRANT—Price each 25c; per 10, \$2.00.

CHOKE CHERRY—3 to 4 feet, 25c; per 10, \$2.00; 4 to 5 feet, 35c; per 10, \$3.00.

SAND CHERRY—Price each, 25c; per 10, \$2.00.

WILD BLACK CHERRY—Each, 35c; per 10, \$3.00.

WILD OR NATIVE PLUM—Each, 25c; per 10, \$2.00.

Any of above, 5 at the 10 rate.

HORSERADISH—Hardy anywhere. Fine for relish. Each, 15c; 10 for 50c.

CATNIP—Price each, 15c; per 5, 50c.

SMALL FRUITS

Don't hesitate to plant plenty of the following list of dependable small fruits. Nothing better for jellies, jams and preserves and to eat when ripened, naturally.

All small fruit is composed mostly of water, so do not forget to give the plants a chance, not only to live, but to store up enough extra vitality to produce a crop worth while.

CURRENTS

PERFECTION—One of the new varieties which is a wonderful bearer of large juicy and mild flavored red berries. Without exception one of the very best grown. Price each, 35c; per 5 or more, 30c each.

RED DUTCH—An old standard, reliable and productive grower. Planted more extensively than any other variety. Medium size, red berry.

WHITE GRAPE—Standard white, very mild flavor and extra fine.

VICTORIA—A vigorous grower, red in color medium size and an excellent variety.

Price on above Currant, 25c each; per 5 or more, 20c each.

GOOSEBERRY

This fruit is becoming more appreciated each year. It is always a reliable consistent bearer and is fine for pies and to mix with other less tart fruits for jellies, sauce and preserves.

The varieties we are offering are tried out and are absolutely dependable.

HOUGHTON—This is the old standard, prolific, hardy, reliable variety. Price each, 25c; per 5 or more, 20c each.

CARRIE—One of the very best. A vigorous

grower of good sized berries. Very prolific. Color green. Fine for canning and jelly. Price each, 35c; per 5 or more, 30c each.

RASPBERRY

We grow only the Prof. Hansen's new varieties as these are the only ones that will withstand our climatic conditions. While it is not absolutely necessary, a light covering during winter, or planted where the snow will bank up around them, will give more berries.

SUNBEAM—Is the hardiest grown and a very prolific bearer of fine juicy fruit. Price per 10, 75c; per 50, \$2.50.

OHTA—Hansen's improved, fruit larger than Sunbeam. Tender and juicy. Price per 10, \$1.00; per 50, \$3.00.

GRAPES

Grapes, to do the best, except the native, should have some winter protection and be covered lightly with litter or snow or laid down and covered lightly with earth. Our experience has been that where they have some protection, they bear much heavier.

BETA—Is a cross between tame and wild, hardy, prolific and fine for cooking and jelly. Color similar to Concord.

ALPHA—Originated in Minnesota. Hardy and prolific, extra fine. Color, blue black.

NATIVE—This is the Dakota wild grape. Price on all grapes, each, 25c; per 10, \$2.00.

STRAWBERRY

Strawberry plants must be set out in well subdued soil and must be well cultivated and if the season is dry, irrigate as the fruit is mostly water and must have that element to mature their fruit to perfection. After the ground is frozen in the fall the plants must be covered lightly with some coarse litter and gradually raked off in the spring-time.

SENATOR DUNLAP—One of the very finest summer varieties grown. Fruits are large and juicy and a good bearer. Price per 50, 75c; per 100, \$1.25, prepaid.

PROGRESSIVE—Standard reliable ever-bearing, true to name. Will bear from early summer until after hard late frosts. Everyone can enjoy strawberries and cream and strawberry shortcake all summer long by growing this variety. Price per 50, \$1.25; per 100, \$2.00, prepaid.

JUNE BERRY

SUCCESS—We are the only nursery in the west that is offering this improved June-berry. Never fails to fruit, very hardy and dependable. Fruit large, juicy and less seedy than the native. Price each, 35c; per 5 or more, 30c each.

NATIVE—Makes a growth larger than Success and is a desirable heavy ornamental. Each, 25c; per 5 or more, 20c each.

ASPARAGUS

The earliest and hardest of all vegetables. Plant about 4 inches deep in rich soil. Will last a lifetime. Doctors all agree that it is the healthiest vegetable grown.

Asparagus can be planted in separate beds or around the edge of the garden. It will stand any amount of fertilizing. In planting cover the crowns 3 to 4 inches. Do not cut the first season and sparingly the second year.

MARY WASHINGTON—A new variety originated by the U. S. Department of Agriculture. Extra large and fine and the coming asparagus. Price, yearling plants, 50 for \$1.50; 100 for \$2.50; 2 year plants, 50 for \$2.00; 100 for \$3.00.

PALMETTO—The old reliable variety. Price, large thrifty plants, 50 for \$1.00; 100 for \$1.50.

PIE PLANT

The best early fruit and one of the best tonics. Fine for pies, sauce and canning. Plant loves a rich, moist location and is a gross feeder. Needs dividing every third year. The plants we offer are large and matured.

MAMMOTH—The largest variety of pie plant family; juicy and very tender.

PINEAPPLE—A distinctive variety, as its name implies. Stalks red and juicy. Price each, 20c; per 5, 75c; per 10, \$1.25.

SHADE TREES

We propagate our own trees and take particular pains that the parentage is grown in the north. Shade trees brought in from the south or east generally winter kill and prove failures.

We do not compete in price with the southern and eastern nurserymen. We cannot do it, because it takes us a third to twice as long to grow our stock, as our nursery is located on the high prairie land, but when we send our products out we know for a certainty they will stand up better, being grown under similar conditions where the trees will be transplanted to. All of our stock will be shipped the same day as dug and which insures success. Our trees will come to you in the pink of condition.

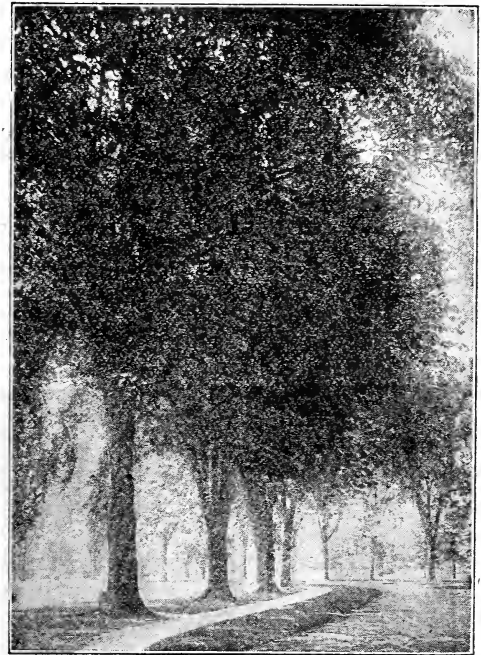

The following prices are for transplanted trees. This means an extra developed root system which means so much to the life and after development of the tree.

AMERICAN ELM—Without question the Elm is the best ornamental tree we grow for street purposes and for around buildings. Absolutely hardy and dependable. The graceful Elm gives a finished appearance to any home. We have an extra fine lot of all sizes that cannot be duplicated and that will please the most exacting...

	Each	Per 10
4 to 5 feet.....	\$0.30	\$2.50
5 to 6 feet.....	.40	3.50
6 to 8 feet.....	.60	5.00
8 to 10 feet.....	.85	7.00
10 to 12 feet.....	1.00	8.50

ASH—Native and extra hardy and a great drought resister. Will respond to kindly treatment and make a good sized tree if cultivated and watered well.

	Each	Per 10
3 to 4 feet.....	\$0.15	\$1.00
4 to 5 feet.....	.25	2.00
5 to 6 feet.....	.35	3.00
6 to 8 feet.....	.50	4.00
8 to 10 feet.....	.75	6.00
10 to 12 feet.....	1.00	8.50

American Elms

BOX ELDER—One of the standbys, makes the densest of all shade trees, does well in alkali and gumbo soils.

	Each	Per 10
4 to 6 feet.....	\$0.35	\$3.00

CHINESE ELM—A hardy elm recently introduced that is becoming very popular. Makes a rapid growth and resists drought well. Has a very ornamental leaf and Quite similar in appearance to the American Elm. 4 feet, each 75c; per 5, 65c each.

COTTONWOOD—This native tree we consider the best for windbreak purposes. Absolutely hardy, fast grower, sometimes growing 6 feet in a single season. A good background and alley tree, in fact is good any place. A tree that is associated with nearly all the early history incidents of our state and it deserves more kindly treatment than it sometimes receives. We have an extra fine lot this year.

	Each	Per 10
4 to 5 feet.....	\$0.20	\$1.75
5 to 6 feet.....	.30	2.50
6 to 8 feet.....	.40	3.50
8 to 10 feet.....	.50	4.00

SILVER LEAFED POPLAR—Fine for landscape and ornamental purposes.

	Each	Per 10
3 to 4 feet.....	\$0.25	\$2.00

RUSSIAN OLIVE—Fine for landscape purpose. Will withstand droughty condition. Blossoms have a very sweet scent and stony fruit readily eaten by birds during the winter.

	Each	Per 10
3 to 4 feet.....	\$0.25	\$2.00
4 to 5 feet.....	.35	3.00

LAUREL LEAFED WILLOW—For specimen purposes we believe this is the finest of all the willow family. The dark shiny leaves and vivid green barks are very attractive. Is not subject to worm pests.

	Each	Per 10
4 to 5 feet.....	\$0.35	\$3.00

RUSSIAN GOLDEN WILLOW—The light green leaves with the golden bark fits in fine for variety. Absolutely hardy.

	Each	Per 10
4 to 5 feet.....	\$0.25	\$2.00

NIobe WEeping WILLOW—This is the only hardy weeping willow. With its long pendulent and drooping limbs makes one of the most beautiful of all specimen trees. All willows do best in moist places. Plant a Niobe and enjoy one of nature's wondrous beauties.

	Each	Per 35
3 to 4 feet.....		\$0.35
4 to 5 feet.....		.50

LINDEN OR BASSWOOD—This is a handsome lawn and shade tree, pyramidal in form with large, bright green leaves.

Each, 35c; per 10, \$3.00.

WILD BLACK CHERRY—Native ornamental as well as useful. Small black cherries good for jelly and the birds. A rapid, tall growing tree.

	Each	Per 10
2 to 3 feet.....	\$0.25	\$2.00
5 or more at 10 rate.		

EVERGREENS

There is not a tree as useful as the evergreen. When fully grown it is a protection in summer against hot winds and in winter from icy blasts, a comfortable tree for man and beast.

Our prices are for transplanted stock and which are shipped with lots of dirt around the roots. Our past experience has not been the rosiest as when we shipped with roots packed in moss it allowed too much exposure to the wind and sun which an evergreen root cannot stand for a minute. When received see that it is planted without any delay and have a tree that you can enjoy the year around. Do not remove burlap as it soon rots.

When winter's bleak and stormy mantle is thrown over mother earth the evergreen is then appreciated most and they are a gentle reminder that spring is just around the corner.

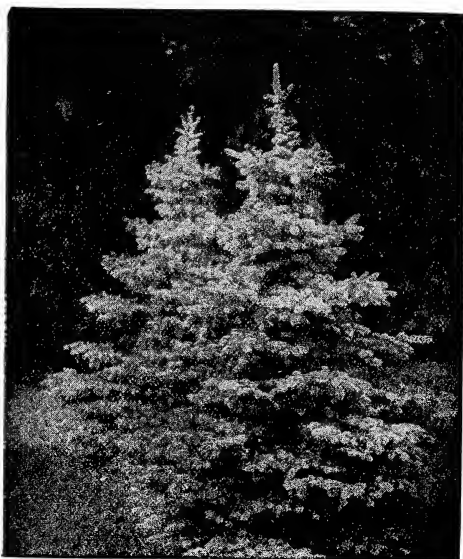

COLORADO BLUE SPRUCE—(Select).

These are the silvery leaved spruces, called Shiners and the most beautiful of all specimen evergreens. Similar to the Green in growth.

	Each
18 inch	\$3.50
24 inch	5.00

COLORADO SPRUCE—(Green). For a lawn specimen this spruce stands foremost. Its leafy boughs outstretch in a pyramidal symmetrical beauty and is universally admired.

	Each
18 inch	\$2.50
12 inch	2.00

Colorado Blue Spruce

BLACK HILLS SPRUCE—Very desirable for ornamental and cemetery purposes and we think the best of the spruces for us to plant. A native evergreen which means so much in selecting something dependable.

	Each	Per 10
12 inch	\$0.75	\$ 6.00
18 inch	1.00	7.50
2 feet	1.25	10.00

BLACK HILLS PINE—Best of all the pines and one of the most shapely.

	Each	Per 10
18 inch	\$0.75	\$6.00
2 to 3 feet.....	1.00	7.50

JACK PINE—Hardy and good for wind-break.

	Each	Per 10
12 inch	\$0.35	\$3.00
18 inch50	4.00

RED CEDAR—Best of all drought resisters and assumes a beautiful shape.

	Each	Per 10
2 to 3 feet.....	\$0.75	\$6.00
5 to 6 feet.....	7.50

All evergreens Balled and Burlapped, with plenty of dirt around roots. Plant without removing burlap.

HEDGE PLANTS

There is no planting that so emphasizes distinction as a nice, well kept hedge. For landscaping it is effective and is useful for dividing lines, screens, shutting off an undesirable view and lends an air of seclusion.

Set plants from 12 to 18 inches apart in the row. When plants are set, cut back to about three inches of the ground. The following year trim back to about six inches and the third year to within nine inches and one foot. This will give the base a chance to thicken up, which is necessary to make a compact, good appearing hedge. Many make the mistake of waiting too long before trimming back.

BUCKTHORN—We believe this is by far the best of all hedges. Beautiful colored leaves that cling late in the fall. Trims up easier and does not get as coarse. Hardy and dependable. Per 100, \$7.50.

CARAGANA—Or Siberian Pea Tree. Foliage very attractive and beautiful. Per 100, \$5.00.

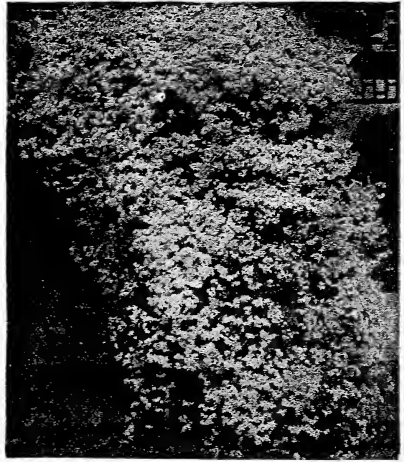

FLOWERING CURRANT—Native. Ornamental as well as useful. Per 100, \$10.00.

RUSSIAN OLIVE—Hardy and good drought resister. Silver leaves add beauty. Per 100, \$3.50.

HEDGE TRIMMER—Simplicity hedge pruner and trimmer. \$5.00 and \$7.50. Send for circular.

VINES

AMERICAN IVY—Is the hardest, most reliable of all climbers. A rapid grower. Strong transplanted plants. Each, 35c; per 5, \$1.25.

CLEMATIS JACKMANNI—There is no more beautiful sight than when the large purple blossoms cover the entire vine. Semi-hardy but will start up from the roots each year. We are sending these out in pots leaded out as they are extremely hard to transplant otherwise. Each \$1.25, and worth it.

CLEMATIS PANICULATA—Similar if not the same as the native Clematis. A good grower, having a small white flower and later turning to a white cottony seed. Strong transplanted plants. Each, 35c; per 5, \$1.50.

SCARLET TRUMPET HONEYSUCKLE—Best for covering low screens, etc. It is one of the most cheerful blossomers of scarlet flowers and is very desirable for bouquets and decorating. Strong transplanted plants. Each, 35c; per 5, \$1.50.

WILD GRAPE—Native; makes a good climber for screens, etc. Price each, 25c; per 5, \$1.00.

BITTERSWEET—Native and an extra dependable, fine climber and twiner. Fruit ornamental. Price each, 35c; per 5, \$1.50.

JASMINE—A shrubby semi-climber, extremely hardy, purplish blossoms and showy silvery leaves. Good for trellis. Each, 25c.

SMALL TREES

ASH—Hardy and always reliable.

BOX ELDER—Makes a dense shade tree.

COTTONWOOD—Reliable and fastest grown.

ELM—Stately and hardy.

Price for above: 12 to 18 in., per 100, \$1.50.

RUSSIAN OLIVE—Fine for snow fence and windbreak. 12 to 18 inch, per 100, \$3.50.

CARAGANA OR SIBERIAN PEA TREE—12 to 18 inch, per 100, \$5.00.

WILLOW CUTTINGS—Diamond, golden, laurel and ural Willow. Per 100, 75c.

Ornamental and Flowering Shrubs

Here you will find listed only the hardiest of all the ornamentals. For banking around foundation and for landscape effect the ornamentals must be used.

Be very liberal in planting from this list. The first year's satisfaction in having these associates with you just make life worth living. Don't lose the best part of your life by not making a liberal planting of our hardy ornamental shrubs.

PINK FLOWERING ALMOND—The shrub is entirely covered with bloom before the leaves appear, with beautiful pink rosy like flowers snuggling tight to the twigs. One of the outstanding beauties. Each, 75c.

ALMOND-SIBERIAN—This is a dwarf hardy ornamental that Prof. Hansen brought over from cold Siberia. It is the first to blossom in the spring and no other ornamental attracts more attention. The rose pink blossoms which are fragrant come before the shrub leafs out. It is one of outstanding merit and should be in every collection. Each, 50c.

AMERICAN ELDER—Wide, showy green leaves with white flower followed by edible berries. Each, 25c.

AMERICAN WAHOO OR STRAWBERRY TREE—Native hardy leaves very showy with brilliant colored berries that hang on the tree all winter, very desirable and extremely attractive. Each, 35c.

AMUR MAPLE—This is a very hardy small maple from Siberia, especially noteworthy on account of its beauty of shape and foliage and the glowing colors which it takes on in the fall. Each, 35c.

BLACK HILLS BLOOMING WILLOW—A new dwarf willow, very showy, silvery foliage, flowers yellow, blossoms all summer long. Each, 50c.

BLACK HILLS BIRCH—Coming from the Black Hills we think will be hardier than the other white birches, but like all birches will do better if planted in a partially shaded place. Makes a beautiful shaped tree. Each, 75c.

BUFFALO BERRY—A native strong grower with cheerful colored leaves and berries that are fine for jelly. Each, 25c.

BUCKTHORN—Extra reliable ornamental as it can be pruned or trimmed to any shape desired. Hardy and dependable. Each, 35c.

CARAGANA OR SIBERIAN PEA TREE—Bark and leaves very attractive with yellow pea shaped blossoms in early summer. Each, 35c.

CHOKE CHERRY—Desirable showy, strong growing native, no blossoms more sweetly scented. Fruit good for jelly and the birds. Each, 35c.

DOGWOOD—Siberian strain, red showy bark with white flowers, very desirable for landscape work. Will stand partial shade. The bark is very attractive in winter. Each, 40c.

GOLDEN ELDER—Golden leaves with white flowers. Very showy and ornamental. Both elders will sometimes freeze to the ground but make a luxurious showy growth every season. Each, 50c.

FLOWERING CURRANT—A hardy, desirable ornamental. Profuse bloomer of sweet scented yellow blossoms followed by a black edible currant. Useful as well as ornamental. Each, 35c.

HIGH BUSH CRANBERRY—A very desirable ornamental, quite similar to snowball in blossoms. Fruits fine for jelly. Becoming very popular. Each, 50c.

HONEYSUCKLE-TARTARIAN—Is one of the most dependable and best ornamental grown, the sweet scented blossoms remembered long after they fall. Light orange colored berries in late summer and early fall make it one of the outstanding of the ornamentals. Comes in two colors, white and pink. Fine bushy plants, not yearling slips. Absolutely hardy everywhere. Each, 50c.

JAPANESE BARBERRY—Loaded with red berries in fall, is very effective. No relation to the kind that causes rust on wheat. Each, 35c.

JUNEBERRY—Native, blossoms white, the fruit of the Buffalo Berry, Choke Cherry and Juneberry are good for jelly. A hardy handsome, upright and stately grower. Each, 35c.

PURPLE LEAF PLUM—A very desirable ornamental. The brilliant purple leaves always attract a great deal of attention. Makes a good background shrub but is very attractive wherever it is planted. Each, 75c.

MAY DAY TREE—A bird cherry from Siberia. Very ornamental. First to leaf out in the spring; blossoms white, fruit quite similar to choke cherry. A fast grower and fine for background or where a heavy shrub is wanted. Each, 50c.

MANITOU—An early spring-flowering tree or shrub, dwarf to medium size, producing great masses of pink bloom but no fruit. A hardy cross between Siberian almond and peach. Originated at Minnesota experiment station. Each, 75c.

PYRUS BACCATA OR WILD APPLE—An upright profuse blossomer with miniature apples in the early fall that color up like little cranberries. A fine large ornamental. Each, 50c.

PRUNUS TRILOBA OR FLOWERING PLUM—A very popular ornamental with masses of double rose flowers that blossom early in the season. Each, 75c.

PURPLE LEAF SAND CHERRY—One of the most attractive and outstanding ornaments grown. Leaves and bark a beauti-

Spirea

ful wine color. Bush makes a shapely growth. Introduced by Prof. N. E. Hansen. Each, 75c.

SUMAC—Leaves fern like turns to crimson in the fall. Very desirable to plant with other ornamentals. Stands trimming and can be kept at any desirable height. Each, 50c.

SNOWBALL—An old favorite, no planting is complete without this standby. Each, 50c.

SNOWBERRY—A very popular shrub with attractive white berries. Each, 50c.

SPIREA VAN HOUTTEI OR BRIDAL WREATH—The old favorite hardy white. Very desirable and more in demand than any other spirea. Each, 35c.

SPIREA ARGUTA—The earliest of the spireas, blooming before Van Houttei. Flowers in massed umbels. Color white. Very beautiful and hardy. Each, 35c.

SPIREA BILLARDI—With pink blossoms, no collection complete without this desirable ornamental. Each, 35c.

SPIREA BUMULDA—Rosy colored blossoms, desirable and handsome shrub. Each, 35c.

SYRINGA OR MOCK ORANGE—Has showy white blossoms. It sometimes freezes back to the ground. Each, 35c.

TAMARIX AMURENSIS—A tall growing shrub with feathery foliage that resembles the Juniper. Has small pink flowers and the contrast with the foliage makes a very attractive and ornamental shrub. Quite hardy. Each, 50c.

Snowball

Morristown, S. D., May 12, 1926.

"About seven years ago I purchased red and yellow rose bushes and peony plants from you. They have grown to wonderful large bushes and blossomed beautifully."

LILACS

No place is quite complete without the Lilacs. The hardiest of all the shrubs, absolutely dependable and there is no scent as welcome and refreshing. All the world loves the Lilac. The newer varieties blossom at an early stage and are really beautiful. No shrub will stand the abuse and last as long as the lilacs.

COMMON PURPLE—The lovely old favorite. Each, 25c.

COMMON WHITE—A strong upright grower. Each, 30c.

PERSIAN—Not as strong a grower but very graceful, shapely and showy, early bloomer. Each, 35c.

THE NEW LILACS

The new lilacs start blossoming very early in life. Perfectly gorgeously attractive and sweet scented.

MADAM LEMOINE—A large beautiful and delightful white. Each, 75c.

JOSIKEA—A sturdy purple, very shapely. Each, 50c.

VILLOSIA—Light pinkish purple somewhat dwarf in growth. Each, 50c.

DR. BRETSCHNEIDER—A strong growing white, very desirable. Each, 50c.

SEN VOLLAND—A rosy colored blossom. A rather upright grower. Each, 50c.

MADAME CASIMER PERIER—An attractive creamy white. Each, 50c.

LUDWIG SPAETH—A very desirable purplish red. Nothing more attractive grows. Each, 75c.

CHINESE TREE LILAC—Grows to quite a tree and makes one of the best background shrubs. Has white blossoms. A little tardy to start blossoming but repays one well when it starts. Each, 50c.

LILIES

FULVA DAY LILY—This is a tall growing, hardy orange colored flower, fine for background. Each, 25c.

LILY OF THE VALLEY—Dainty and very sweet scented. Does best on north side of buildings or in partial shade. Each, 15c.

SINGLE TIGER LILY—Mother's old favorite. Each, 15c.

DOUBLE TIGER LILY—An improved double. Each, 20c.

Dutch Bulbs

These are the harbingers of spring and are the first flowers to welcome us with their sweet fragrance. These must be planted in the fall and we will be pleased to send our Bulb and Peony list during the late summer with full descriptions of varieties. If you wish this list sent just write on your order "Send bulb list when issued."

When a firm will give you the privilege of returning your order if not satisfied and your money refunded, you can expect to get your money's worth.

CUT FLOWERS

Nothing is ever received more gratefully than a bouquet of fresh flowers. During the growing season we have any quantity of Iris, Peonies, Gladioli and other outdoor flowers. Remember the sick, shut-ins, mother or a friend. \$1.00 and up and we prepay the postage. For weddings or other occasions if a quantity is wanted we will make special prices. Phone, wire or write from summer until fall frost. Satisfaction guaranteed.

ROSES

We only wish we had a larger list of hardy roses, but what we are offering outside of the semi-hardy ones are very satisfactory and stand our climate fine. Roses like good soil conditions, but cannot stand fresh fertilizers around the roots. Trim out old stocks every spring after the bush commences to leaf out. One advantage of the rugosas and perpetuals are that if the rose slug stings the first buds they will keep on throwing out new buds and you will have plenty of blossoms.

HARRISON'S YELLOW—The standard early blossoming yellow always attractive. Each, 50c.

TAYLOR'S DOUBLE WHITE—A very desirable double white flowers not very large but very dainty. Each, \$1.00.

HANSA RUGOSA—A semi-double dark red, extra fine, vivid red seed pods add to the ornamental value together with the healthy waxy leaves. Each, 75c.

BLANC DE COUBERT RUGOSA—A semi-double pure white, like Hansa, blossoms all summer. Each, 75c.

HUGONIS—This is the new hardy Chinese rose and which is one more good variety that we can add to our small rose collection. It makes a rapid growth and is a tremendous bearer of single yellow flowers which extend the entire length of the stems and which makes a brilliant display. The foliage turns a bronze red in the fall making a striking effect. We have grown this variety for the past few years and believe that it is perfectly hardy. Each, \$1.00.

TETONKAHA—Introduced by Prof. Hansen and is perfectly hardy. It is semi-double, deep pink in color and fragrant. On account of its rapid growth makes a good ornamental and a background plant. Each, 50c.

SEMI-HARDY ROSES

To satisfy some of the rose lovers and to demonstrate that for the north there is but a short list of hardy roses, we are offering a few varieties that will do well provided (note provided) they are covered with dirt in the late fall and uncovered in the spring and cut back where growth is green. These are varieties that agents generally recommend as hardy, but don't let them fool you. They must be protected in winter.

FRAU KARL DRUSCHKI—Flowers very large, beautiful, pure white. This is the best white Hybrid Perpetual.

GENERAL JACQUEMINOT—Brilliant crimson; not full, but large and extremely effective; fragrant and of excellent hardy habit.

PAUL NEYRON—Deep rose color. By far the largest variety in cultivation. A free bloomer; very desirable as a garden rose. Price of above varieties, each, 75c.

Aberdeen, S. D., June 5th.

"We are more than pleased with all we got from you. It is all growing in fine shape. Will you have your agent call when he is in Aberdeen the next time as we will want some more nursery stock."

Note—We do not have any agents as we sell direct and save buyers the big agents' commissions.

Peonies

Hettinger, N. D., June 23, 1926.

"We were very much pleased with the shipments of Peony Blossoms and we had a good sale for them."

Note—We sell thousands of Peony Blossoms to church societies and we will give exclusive sale to any organization in any town. Peony Blossoms are so easy to sell and are profitable to handle.

Perennial Flowers

No home is quite complete without a good collection of the hardy perennials. Here nature tries to outdo herself in arranging all the delicate tints of the rainbow, exhaling the sweetest of the perfumes and a home without the perennials is like a home without a mother. A little protection in winter helps and a little care to see that weeds and grass do not choke them will repay one a thousand fold. The advantage of the Perennials is that they do not have to be replaced every season and most of them improve with age.

ACHILLEA—A delightful white, profuse bloomer, fine for bouquets. Each, 25c.

BLEEDING HEART—With heart shaped red flowers, a favorite with everyone. Each, 50c.

BOUNCING BETTY—A very profuse hardy and showy bloomer of pinkish white flowers. One of the very best outside flowers. Each, 35c.

COLUMBINE—We are offering the exquisite long spurred hybrids. These are wonderful flowers of many lovely shades. Are easy to grow and are so satisfying. Each, 25c.

Shasta Daisy

DAISIES

SHASTA DAISY—The best and largest of the summer daisies. A good showy blossomer. Grows about 18 inches tall. This is one of Burbank's flowers and is one of the popular daisies. A little protection in winter will help as it is not iron clad hardy. Each, 25c.

GIANT DAISY—A strong, late summer blossomer, extra fine. A good background flower that grows quite tall and is covered with large white daisies. Each, 25c.

GYPSOPHILLIA OR BABY'S BREATH—Delicate white flowers, fine for bouquets. Each, 25c.

LAVATERIA—Siberian strain, healthy bearer of pink flowers and reminds one a little of the cosmos. A fine plant for background. Each, 35c.

LARKSPUR

Words could never be found to faithfully portray the delicate loveliness and perfect grace of form of the Larkspurs. The broad spikes tapering towards the top are sheathed with masses of flowers tinted in the different blues.

LARKSPUR BELLADONNA—Free and nearly continuous bloomer of light blue flowers. Each, 25c.

LARKSPUR CHINENSIS—Makes more of a dwarf growth with foliage small and deeply cleft; the flowers are bright dark blue in color and are loosely paniced. Each, 25c.

LARKSPUR FORMOSUM—The old dark blue favorite and still very popular. Each, 25c.

PLATYCODON OR JAPANESE BELL FLOWER—We have a stock of both the deep blue and the white sort. With its balloon like buds and large, handsome bell

like flowers this is a most satisfactory hardy flower. Blooms in early July. Ht. 20 to 30 inches. (Stake plants at flowering time). Each, 35c.

RUDEBECKIA OR GOLDEN GLOW—Popular, showy yellow flowers, for background planting. Each, 25c.

RIBBON GRASS—Very ornamental and showy. Leaves are striped green and white. Each, 25c.

YUCCA—A native. These keep green during the entire year. Flowers are a beautiful white. Each, 50c.

PINKS—These are like miniature carnations, sweet, spicy scented. Come in many beautiful colors. Each, 25c.

PHLOX

One of the best and showiest of the perennials, blossoms during the hottest part of the summer and early fall when flowers are scarce. Fragrant, fine for bouquets.

MRS. JENKINS—Very beautiful, pure white. Each, 20c.

RIJNSTROOM—Bright crimson-pink, immense flowers. Each, 20c.

R. P. STRUTHERS—Salmon-red. Each, 20c.

IRIS

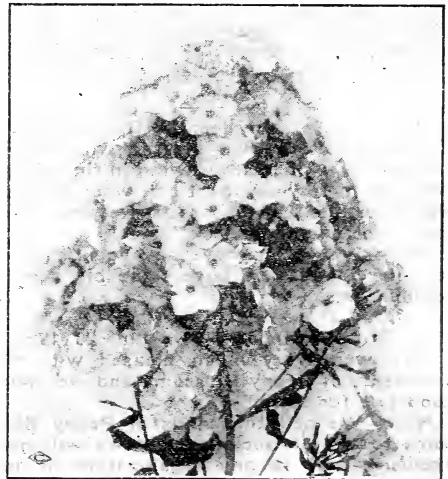

Truly called the orchids of the garden. All the variety of tints imaginable. There are three divisions of the Iris family, Pumula or early, Liberty or German and Siberian, the last to flower. Very easy of culture and will stand dry weather better than nearly any other flower.

Early

PUMULA PURPLE—The old Flag of Grandma's day. Each, 10c.

PUMULA BLUE—Very delicate, sky blue. Each, 15c.

PUMULA GOLDEN—Very choice, extremely lovely and dainty. Each, 20c.

Perennial Phlox

Large Flowering Iris

- AUREA**—One of the best of yellows. Each, 20c.
BLUEBEARD—The best of the even shades of blue. Each, 25c.
CANDIDA—Pale lavender. Each, 15c.
DELICATA—Comes in shades of lilac and lavender. Each, 20c.
FLORENTINA ALBA—A beautiful pure, fragrant white. Each, 25c.
HER MAJESTY—Soft rose, very beautiful and attractive. Each, 25c.
KHEDIVE—A very fine pretty lavender. Each, 20c.
LA TENDRESSE—Lavender and lilac. Each, 15c.
MADAM CHEREAU—White, frilled with violet, beautiful and very popular. Each, 25c.
PALIDA DALMATICA—Queen among Iris, delightful lavender, large exquisite. Each, 25c.
PRINCES VICTORIA LOUISE—Extremely fine, large and very beautiful. Each, 35c.
QUEEN OF MAY—Soft lilac rose. A color rare among Iris. Each, 35c.
SAN SOUCI—Golden and mahogany red, very attractive. Each, 15c.

Siberian Iris

- DISTINCTION**—Beautiful blue sprinkled with white. Each, 20c.
ORIENTALS—A beautiful deep blue. Each, 15c.
SNOW QUEEN—White, golden throat, late, very fine. Each, 20c.
SUPERBA—Large violet blue. Each, 20c.

Collection of Iris

Ten Iris of a mixed lot of six or more varieties for \$1.00.

PEONIES

Next to the rose there is nothing that can equal the peony for regal splendor. It is a luxurious flower, putting one in mind of quantities of velvety rose petals brought to form a single majestic bloom. Folks who grow a few old fashioned peonies—huge bushes occupying several square yards of ground, which seldom produce more than two or three second or third rate flowers—have simply no idea what our peonies which have been selected from the finest varieties in the world, are like. The delicious fragrance of these peonies, together with their splendid form and color, make them absolutely irresistible.

Planting Directions

See that your plants have a chance by planting them in well subdued and rich soil in a sunny location and away from trees or anything that will take the moisture and substance necessary for the growth of flowers.

Felix Grousse Peony

The prices quoted are for good three and five eye divisions—not little pared down stubs some send out.

Reds

- ADOLPHE ROUSSEAU**—(Dessert 8.5). A very large semi-double early dark red. Each, \$2.00.
ANDRE LAURES—A fragrant magenta red. Each, 50c.
DELACHEI—Rich purplish red. A great favorite. Each, 75c.
FELIX CROUSSE—(Crousse 8.4). Rich brilliant ruby red. Very attractive and one of the best of all the reds. Each, 75c.
LOUIS VAN HOUTTEI—Velvety cerise red. Each, 50c.
LA SUBLIME—Rich deep crimson, free bloomer. Each, 50c.
KARL ROSENFELD—(Rosenfeld 8.8). Unsurpassed early brilliant red. Blossoms large and compact. Each, \$2.00.
MARY BRAND—(Brand 8.7). Large vivid crimson, strong grower, new. Each, \$5.00.
OFFICINALIS RUBRA—The old fashioned early red, the first to blossom. Each, 75c.
MONS. MARTIN CAHUZAC—(Dessert 8.8). The darkest red peony grown, exquisitely wonderful. Large and extra fine. Each, \$3.00.
EUGENE BIGOT—(Dessert 8.3). Deep purple amaranth. Free bloomer and very late. Each, \$1.00.
GROVER CLEVELAND—(Terry 8.2). Large full dark crimson. Late and one of Terry's best. Each, \$1.00.

Whites

- COURONNE D'OR**—(Calot 8.1). Called the famous crown of gold. Late, fragrant; one of the best. Each, \$1.00.
- DUCHESS D'NEMOURS**—(Calot 8.1). Large sulphur white, free bloomer. Each, 75c.
- DUKE OF WELLINGTON**—Center sulphur white. One of the best for cut flowers. Each, 50c.
- MADAM EMIL LEMOINE**—(Lemoine 8.9). A mid-season bloomer of milk white blossoms, the buds are beautiful. Each, 75c.
- FESTIVA MAXIMA**—(9.3). The most popular of the whites. Early, very large, center flecked crimson. Each, 75c.
- MME. D'VERNIVILLE**—Exquisite sulphur white, productive, early. Each, 75c.
- MARIE LEMOINE**—(Calot 8.5). A wonderful white with yellow shading touched with pink, strong grower, late. Each, 75c.
- LA TULIP**—White flecked with carmen. Good keeper. Each, 75c.
- BOULE DE NEIGE**—Milk white, guards flecked, unpleasant odor. Each, 50c.
- QUEEN VICTORIA**—A favorite early cut flower variety. Each, 50c.

Pinks

- ACHILLE**—Shell pink, vigorous grower. Each, 40c.
- ASA GRAY**—Large, lilac shade, mid-season, fine. Each, 75c.
- BARONESS SCHROEDER**—(Kelway 9). Extra large, tall free blooming type. Each, \$1.00.
- EDULUS SUPERBA**—One of the most popular early pink. Each, 50c.
- EUGENE VERDIER**—(Calot 8.6). Hydrangea pink, large, mid-season, extra. Each, \$1.00.
- FLORAL TREASURE**—A superb large pink and a great favorite. Each, 50c.
- FRAGRANS**—A fragrant violet rose. Each, 50c.
- GRANDIFLORA ROSEA**—Even clear pink, early. Each, 50c.
- HUMEA**—A Cinnamon scented, late, large pink. Each, 50c.
- JEANE D'ARC**—Soft pink, sulphur white and rose, and truly beautiful. Each, 50c.
- L'ESPERENCE**—A favorite deep pink, very striking. Each, 75c.
- LIVINGSTON**—(Crouse 8.1). Soft pink, lilac rose, full bloom. Each, 75c.
- MATILDE MECHIN**—Lilac rose. Each, 50c.
- MARGUERITE GERARD**—Showy and very beautiful, pink, creamy center. Each, 75c.
- MADAM CALOT**—(8.1). Pinkish white, strong grower. Each, 50c.
- MONS JULES ELIE**—(Crousse 9.2). Early lilac rose, extra large and very popular. A grand flower. Should be in every collection. Each, \$1.50.
- NEPTUNE**—Purplish rose with white strip. Each, 50c.

PIERRE DUCHARTRE—(Dessert 8.2). Very full rose type, lilac flesh with silvery reflex, extremely large and handsome. Each, \$1.50.

OCTAVIE DEMAY—Large, productive, pale pink, extra fine. Each, \$1.00.

RENIE HORTENSE—(Calot 8.7). Desirable pink, crimson splashed. Each, 75c.

RICHARDSON'S GRANDIFLORA—(Richardson 8.8). Immense light pink, late, a strong and vigorous grower. Each, \$1.00.

SARAH BERNHARDT—(Lemoine 9). Mauve rose, silver tipped, late, one of the new varieties. Each, \$3.50.

SOLFATERE—A new desirable pink. Each, 50c.

THERESE—(Dessert 9.8). A large, soft pink, shading into lilac, strong grower, mid-season, a wonderful variety. Each, \$8.00.

TOURANGELLE—(Dessert 9.4.) Large flesh pink, exquisite and charming beyond description. Each, \$7.50.

PEONY COLLECTION—Our selection, one red, one white and one pink. Each, \$1.10.

"The Peony roots were fine and are all starting nicely. I was very much pleased with them."

Dahlias

One of the most satisfactory flowers we grow. Blossoms in late summer and fall when other flowers are scarce.

The Dahlia is very easy to grow. The roots we send out are divided and ready to plant. Place them about four inches deep in the ground. Cultivate to keep weeds down and the ground moist. When frost kills the tops, cut them off near the surface, dig the tubers and store them in a cool cellar where frost will not reach them. Used extensively for bouquets and cut flower purposes. Good background flower. Note the very low prices.

Cactus Dahlias

GEN BULLER—Rich, deep crimson, tipped with white. Very attractive.

HARBOR LIGHT—Vivid orange red.

J. H. JACKSON—One of the best of the dahlia family, dark red, nearly black.

KRIEMHILDA—A fine shade of pink with a white center.

Price for above varieties, 15c each; two for 25c.

Decorative Dahlias

CATHERINE DEUER—An extra large flower. Color, glowing shade of red. Extra fine. Each, 20c.

MRS. CHAS TURNER—Clear canary yellow, very large and attractive. Extra. Each, 20c.

SOUV. DE GUSTAV DOUZON—Very large, beautiful orange scarlet. Profuse bloomer. Each, 20c.

Above varieties, each 20c, two for 35c.

QUEEN OF YELLOW—Very fine yellow. Very free bloomer. Each, 15c; two for 25c.
ZULU—Black velvety red. Each, 10c; per three, 25c.

Show and Fancy Dahlias

BON TON—Deep rich red. A great favorite. Each, 15c.
CRIMSON GLOBE—Flowers round, crimson with long stems. Desirable. Each, 15c.
FRANK SMITH—A dark maroon, tipped with pinkish white. Each, 15c.
JACK ROSE—Named after the red rose. Each, 15c.
ROSE PINK CENTURY—The largest of the single flowered. Deep pink, on long stems. Sure bloomer. Each, 15c.
 Above varieties, each 15c, two for 25c.

DAHLIA COLLECTION—12 mixed Dahlias. \$1.00.

GLADIOLI

There is no flower we grow from a bulb that gives the genuine satisfaction as Gladioli. Easy to raise and blossoms at a time when flowers are scarce. Extra fine for vase bouquets. Plant 4 inches deep. Must be dug up and stored during the winter and planted after May 15th. Our bulbs are sure to please.

AMERICA—The standard popular pink. Flowers large and fine for cut flowers.

BLUE HYBRIDS—Very best of the blue shades, dainty and popular.

MEADOWDALE—Fine white with blotched throat, very attractive. Good grower.

MRS. FRANCIS KING—The standard red. Strong grower. Extra fine and attractive.

GRETCHEN ZANG—Soft, melting pink merging into scarlet on lower petals.

NIAGARA—A delightful cream shade blending to a canary yellow; throat splashed with light carmine.

PEACE—A robust grower, reaching 5 feet; pure white with faint lilac markings on lower petals.

PANAMA—The new pink that has created such a sensation on account of its large waxlike flowers of glowing silvery rose.

PRIMULINUS HYBRIDS—The orchid like flowers are borne on long spikes quite different from the other Gladioli. Fine for bouquets.

SCHWABEN—Pure canary yellow shaded sulphur, the golden throat slightly blotched dull carmine. Flower spikes are tall and strong, numerous and well set with broad flowers.

HALLEY—A most attractive early blooming sort with large well opened flowers, of deep salmon pink, tall, graceful spike.

YELLOW HAMMER—A large, tall growing, sturdy variety with heavy pleasing yellow blooms.

Price for Gladioli—Each, 7c; per 10, 60c. Mixed Gladioli, our choice, 12 for 50c; 50 for \$1.75.

Cut Flowers

We ship thousands of peony blossoms during the month of June and they are becoming particularly popular to June brides for bouquets and decorations and in fact for any doings. Boxes of these lovely creations run from \$1.00 and up if you are not satisfied with any shipment we make, just write us and we will leave it to you to determine what they are worth. Remember the shut-ins and their thanks of delight will repay you for these lovely fragrant blossoms.

TERMS

Cash in advance. Personal checks accepted. All orders f. o. b. Ipswich, S. D. We ship most nursery and small seed orders by express. Bulk seeds generally are cheaper sent by freight. Garden and Flower seeds and 1 lb. seed lots are sent postage paid.

When orders are requested to be shipped by parcel post, please send the necessary postage or we will send parcel post collect. We can send orders weighing up to 70 pounds in the first, second and third zones and up to 50 pounds outside of the third zone. On account of nursery wrappings being so heavy, it is hard to estimate the postage. Also if you live on a prepaid station where there is no agent, include the transportation charges. If you ever receive anything from us in bad order, have it marked "bad order" on the freight or express slip as adjustment can be made much easier.

Unless instructed to the contrary on nursery orders, we will substitute other sizes or as good varieties, if we are sold out on any items.

We give personal attention to all orders and are very careful to label all stock true to name. In case any error occurs on our part, we are willing to replace the variety free, but if replacement is not made we shall not be liable for more than the purchase price.

The prices quoted on seeds are subject to market changes and as it is customary and according to the usages of the seed business, we give no warranty, express or implied, as to the descriptions, quality, productiveness, or any other matter of any seeds, bulbs or plants we send out and will not in any matter be responsible for the crop. If the purchaser does not accept the goods on these terms, they must be returned at once, and the money paid will be refunded. All seeds are sold bags weighed in.

Our nursery adjoins the city of Ipswich on the east (Home of the Yellowstone Trall) and visitors are always welcome.

Warehouse and office on the C. M. & St. P. Ry. Come and see us when in the neighborhood of Ipswich.

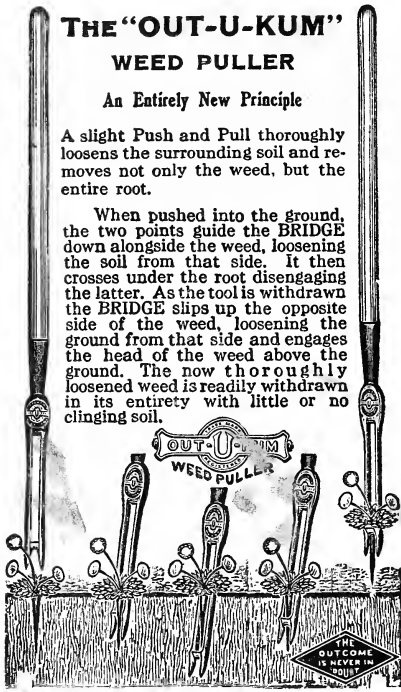

THE "OUT-U-KUM"

WEED PULLER

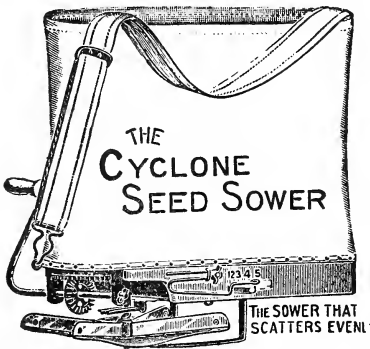

An Entirely New Principle

A slight Push and Pull thoroughly loosens the surrounding soil and removes not only the weed, but the entire root.

When pushed into the ground, the two points guide the BRIDGE down alongside the weed, loosening the soil from that side. It then crosses under the root disengaging the latter. As the tool is withdrawn the BRIDGE slips up the opposite side of the weed, loosening the ground from that side and engages the head of the weed above the ground. The now thoroughly loosened weed is readily withdrawn in its entirety with little or no clinging soil.

The Greatest Dandelion Weeder on the Market. Price, \$1.00, postpaid.

CYCLONE SEED SOWER—The best hand machine for sowing broadcast clovers, alfalfas and grass seeds. They soon pay for themselves for the even stand and the seed saved. Price, each, \$2.25, prepaid.

HORN HAND SEEDER—The most practical horn seeder made. \$1.25, postpaid.

SPRAYERS—Acme 4 gallon pressure sprayers, \$6.00. Continuous one quart sprayers, \$1.25, postpaid.

SPRAYING MATERIAL—Arsenate of Lead, Bordeaux Mixture, etc., in quantities.

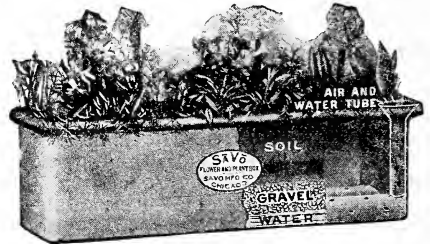

We do not want you to liken us to the average tree agent as when you sign on the dotted line with an agent you have no come-back is it binds you to pay and accept the order whether you are satisfied or not. It is different with us. If you are not satisfied with the shipment you get from us, send it back and your money will be refunded or adjusted to your satisfaction. Then see the amount you save buying from us.

BARKER

WEEDER, MULCHER
AND
CULTIVATOR

We have used these weeders for years and believe them to be by far the best garden cultivator and weeder made. One boy can do as much with one of them as six men can with hoes. Price, D8½, \$10.00, and well worth it.

Self Watering Window Box

For windows, porches and sun parlors. Made of metal and are rust proof. No surface watering. Handsome dark green enamel finish. The most efficient durable and artistic plant box made.

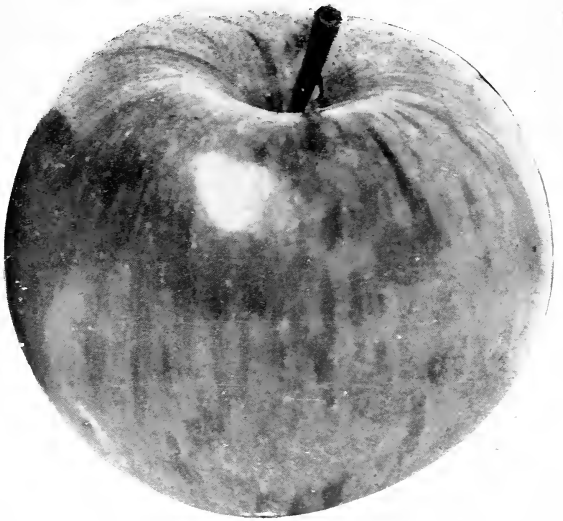

Price—29 inch long, \$4.00 each.
32 inch long, \$4.50 each.
41 inch long, \$5.00 each.

The Iron King is a wonderful garden seeder. Sows any kind of seed evenly and at the right depth. Less complicated than other seeders and soon pays for itself on the seed it will save. Price, complete, \$13.50.

ANOKA APPLE

One of the really big outstanding new varieties of Prof. Hansen. Apples can be picked two years after setting out the trees. Isn't that a wonderful thing? Price, 2-year-old trees, 65c, 5 for \$3.00.

DAHLIA FLOWERED ZINNIAS

Zinnias are one of the lovely creations of the beautiful that can be raised so successfully.

No flowers are so sure to grow and are so satisfactory.

Make the Great Northwest more beautiful by planting our northern strain of fine Zinnias. See page 28.

GLADIOLI

Called Glads for short, and we know of no flower that gladdens the hearts of everyone like these superb flowers do. Try our named varieties or our rainbow mixture. See page 39.
